8 SYNOPSIS: This bill would create the Blue Alert
9 system, which is a system for notifying certain
10 participants in the system when a suspect of a
11 crime involving the death or serious injury of a
12 peace officer has not been apprehended and law
13 enforcement personnel have determined that the
14 suspect may be a serious threat to the public or
15 when a peace officer becomes missing while in the
16 line of duty under circumstances warranting concern
17 for the safety of the peace officer.

18 This bill would give the Director of the
19 Department of Public Safety the authority to
20 oversee the alert system and adopt rules to
21 implement the alert system.

22 This bill would allow the Department of
23 Public Safety to recruit certain media and certain
24 entities and persons to assist in implementing this
25 act and to give the department the authority to
26 enter into agreements with participants in the

1 alert system to provide necessary support for the
2 alert system.

3 This bill would require a law enforcement
4 agency participating in the alert system to
5 cooperate with the department and assist in
6 developing and implementing the alert system, would
7 require the law enforcement agency to establish a
8 plan for providing information to its officers,
9 investigators, or employees once the alert system
10 has been activated, and would require the law
11 enforcement agency to utilize a rapid response
12 telephone system that alerts residents in a
13 targeted area.

14 This bill would limit the liability of an
15 entity or individual involved in the dissemination
16 of an alert generated through the alert system.
