8 On page 1, line 10, after "substances;" insert the
9 following:

10 to amend Section 20-2-23, Code of Alabama 1975,
11 relating to Schedule I of the controlled substances list, to
12 include additional controlled substances;
13

14 On page 2, delete lines 16 through 20.
15

16 On page 3, after line 21, insert the following
17 section and renumber the remaining sections accordingly:

18 "Section 2. Section 20-2-23, Code of Alabama 1975,
19 is amended to read as follows:

20 §Section 20-2-23.

21 (a) The Legislature finds the following:

22 (1) New synthetic substances are being created which
23 are not controlled under the provisions of existing state law
24 but which have a potential for abuse similar to or greater
25 than that for substances controlled under existing state law.
26 These new synthetic substances are called "synthetic
27 controlled substances or synthetic controlled substance

1 analogues" and can be designed to produce a desired
2 pharmacological effect and to evade the controlling statutory
3 provisions. Synthetic controlled substances or synthetic
4 controlled substance analogues are being manufactured,
5 distributed, possessed, and used as substitutes for controlled
6 substances.

7 (2) The hazards attributable to the traffic in and
8 use of a synthetic controlled substance or synthetic
9 controlled substance analogues are increased because their
10 unregulated manufacture produces variations in purity and
11 concentration.

12 (3) Many new synthetic substances are untested, and
13 it cannot be immediately determined whether they have useful
14 medical or chemical purposes.

15 (4) The uncontrolled importation, manufacture,
16 distribution, possession, or use of controlled substance
17 analogues has a substantial and detrimental impact on the
18 health and safety of the people of this state.

19 (5) Synthetic controlled substances or synthetic
20 controlled substance analogues can be created more rapidly
21 than they can be identified and controlled by action of the
22 Legislature. There is a need for a speedy determination of
23 their proper classification under existing law. It is
24 therefore necessary to identify and classify new substances
25 that have a potential for abuse, so that they can be
26 controlled in the same manner as other substances controlled
27 under existing state law.

1 (b) The controlled substances listed in this section
2 are included in Schedule I:

3 (1) Any of the following opiates, including their
4 isomers, esters, ethers, salts, and salts of isomers, esters
