### Senate Bill 25

Committee: State Governmental Affairs

**Senate Bill 25** as introduced would increase the administrative obligations of the Alabama Board of Physical Therapy by a small undetermined amount to implement the provisions of this bill and the Physical Therapy Licensure Compact. The board's increased obligations could be offset, wholly or partly, by an undetermined amount, from the board's ability to assess administrative penalties and a board estimated \$11,400 biennially to impose compact privilege licensing fees upon licensees from compact states.
