

FISCAL NOTE

Senate Bill 23

Committee: Health

Sponsor: Senator Jack Williams

Analyst: Mathieu Fuller

Date: 03/06/2024

Senate Bill 23 as reported by the Committee on Health would prohibit the manufacture, sale, and distribution of cultivated food products in the state, which could increase receipts to the State General Fund and municipal general funds from fines; increase receipts to the State General Fund, county general funds, municipal general funds, and other funds to which court costs are deposited; and could increase the obligations of the State General Fund, district attorneys, and local jails by an undetermined amount dependent upon the number of persons charged with and convicted of the offenses provided by this bill and the penalties imposed.

In addition, this bill could further increase receipts to the State General Fund from civil penalties (ranging from \$100 for a Class II violation up to \$10,000 for a Class V violation), imposed on food sales establishments that violate the provisions of this bill.

This bill could also increase the administrative obligations of the Department of Public Health and the Department of Agriculture and Industries for the adoption of rules determined necessary to implement the provisions of this bill.
