5 Replace line 25 on page 1 with the following:

6 by a licensed game breeder pursuant to  
7

8 Replace lines 76 through 79 on page 3 with the following:

9 (d) The department may not require the killing of a  
10 cervid due to a disease unless: (i) the specific disease  
11 has been detected in another cervid possessed by the  
12 licensee; or (ii) the cervid has been  
13

14 Replace lines 81 through 100 on pages 3 through 4 with  
15 the following:

16 epidemiologically linked to a diseased cervid  
17 possessed by the transferring licensee.

18 (e)(1) The department, in consultation with the State  
19 Veterinarian, shall adopt rules on or before March 1,  
20 2026, that allow for the transfer of a cervid from a  
21 licensee within a designated disease management zone to  
22 another licensee or enclosure outside of a designated  
23 disease management zone under the circumstances provided  
24 herein. The rules shall provide options for the transfer

of a cervid, including, but not limited to, that the  
transferring licensee complies with all postmortem  
testing programs and: (i) double fencing of pens and  
other standards for pens are followed; (ii) a United  
States Department of Agriculture (USDA) certified live  
test for chronic wasting disease is used; (iii)  
scientifically accepted genomic testing values are  
satisfied; or (iv) any other test approved by the USDA  
and recommended by the State Veterinarian is used.

(2) The department may not adopt an emergency rule  
that overrides this subsection."
