Senate Bill 51 as reported by the Committee on Banking and Insurance could increase the obligations of the Public Education Employees' Health Insurance Board by an estimated $1.9 million annually and the State Employees' Insurance Board by an estimated $1.6 million due to the minimum reimbursement rate set by this bill for health insurers to pay in-network and out-of-network ground ambulance providers.

Further, this bill would increase the obligations of the Alabama Department of Public Health by an undetermined amount to adopt rules and obtain annual reports from emergency medical service providers due to the provisions of this bill.
