

FISCAL NOTE

House Bill 238

Committee: Judiciary

Sponsor: Representative Parker Moore

Analyst: Hunter Lapp

Date: 02/19/2025

House Bill 238 as reported by the Committee on Judiciary would increase the administrative obligations of various occupational licensing boards to publish certain licensing determination guidelines on each board's website and to provide requests for determination to comply with the provisions of this bill. However, these obligations could be offset, in whole or in part, by the collection of a fee of no more than \$20 per request, as provided by this bill.

Further, this bill would increase the obligations of the Board of Pardons and Paroles by an undetermined amount to create and issue certificates of employability and establish rules to implement the provisions of this bill.
