

FISCAL NOTE

Senate Bill 336

Committee: Education Policy

Sponsor: Senator Clyde Chambliss

Analyst: John Friedenreich

Date: 04/30/2025

Senate Bill 336 as introduced would authorize certain local boards of education to convert two or more non-charter public schools into conversion public charter school districts under the authority of the local board of education. This bill could increase the obligations of a local board of education that decide to convert multiple schools into a conversion public charter school district, by an undetermined amount dependent upon the costs associated with creating a separate conversion public charter school district pursuant to the provisions of this bill.
