

FISCAL NOTE

Senate Bill 289

Committee: Finance and Taxation Education Sponsor: Senator Arthur Orr

Analyst: John Friedenreich Date: 04/09/2025

Senate Bill 289 as introduced would increase the administrative obligations of the State Board of Education to: (1) develop standards and a model success sequence curriculum appropriate for all grades; (2) recruit, select, and train instructors to administer the curriculum and (3) adopt rules to implement the provisions of this bill.

Additionally, this bill would increase the obligations of local boards of education to adopt and implement the model success sequence curriculum, by an undetermined amount dependent upon the manner in which local boards of education opt to present the curriculum.
