

FISCAL NOTE

Senate Bill 11

Committee: Finance and Taxation General Fund Sponsor: Senator Linda Coleman-Madison

Analyst: Jennifer Farish

Date: 02/24/2025

Senate Bill 11 as introduced would increase the current license tax and registration fees for passenger and motorcycle registration by \$5 with the proceeds deposited into the Alabama Public Transportation Trust Fund and used by the Alabama Department of Economic and Community Affairs to increase public transportation options across the state. Additionally, this bill would allow county commissions and municipalities to opt-out of the requirement to impose and charge the additional license tax and registration fee.

Based upon a 5-year average of 5,191,839 passenger and motorcycle vehicle registrations, a \$5 increase in the license tax and registration fee could increase receipts into the Alabama Public Transportation Trust Fund up to an estimated \$26 million annually dependent on the number of county commissions and municipalities that opt-out of imposing the additional license tax and registration fee.
