**Senate Bill 267** as introduced would create the five-member Alabama Charter School Finance Authority issue bonds, of which the aggregate principal amount would be determined by the board of directors, for the purpose of providing loans to state charter educational institutions to finance project costs. The annual debt service obligations of the Authority is undetermined but would be dependent upon the amount of bonds issued, the interest rate at the time of issuance, and the repayment date of the bonds. The provisions of this bill would not otherwise affect state or local funding.
