

FISCAL NOTE

Senate Bill 307

Committee: Fiscal Responsibility and Economic Development Sponsor: Senator Keith Kelley

Analyst: Mathieu Fuller

Date: 04/22/2025

Senate Bill 307 as reported by the Committee on Fiscal Responsibility and Economic Development would require counties and municipalities to: (1) annually publish certain financial information on official county and municipal websites, or certain other websites until an official website is created if an official county or municipal website is not maintained; or (2) to post in certain county and municipal offices where such information may be found. This would increase the obligations of the counties and municipalities not currently providing financial information through online publication by an undetermined amount dependent upon the costs to create and maintain an official website.
