**House Bill 287** as reported by the Committee on County and Municipal Government could increase the administrative obligations of a state, county, or municipal law enforcement agency to report the number of sworn law enforcement officers employed by each agency. This bill would also increase the administrative obligations of the Alabama State Law Enforcement Agency to adopt rules to implement these provisions.

Additionally, this bill could reduce funding to any state, county, or municipal agency by an undetermined amount dependent on the amount of grant funding administered by the Alabama Department of Economic and Community Affairs that is withheld for failure to submit the reports required by the provisions of this bill.
