FISCAL NOTE

House Bill 332

Committee: Education Policy
Sponsor: Representative David Faulkner
Analyst: John Friedenreich
Date: 03/17/2025

House Bill 332 as introduced would codify existing rule of the State Department of Education to require public school students, beginning with graduates of the 2031-2032 school year, to earn at least one credit in a department approved computer science course. This bill could increase the administrative obligations of the department to ensure that computer science courses meet certain instructional criteria.
