FISCAL NOTE

House Bill 332

Committee: Education Policy | Sponsor: Representative David Faulkner

Analyst: John Friedenreich | Date: 03/19/2025

House Bill 332 as reported by the Committee on Education Policy would codify existing rule of the State Department of Education to require public school students, beginning with graduates of the 2030-2031 school year, to earn at least one credit in a department approved computer science course. This bill could increase the administrative obligations of the department to ensure that computer science courses meet certain instructional criteria.
