## SB304 Enrolled

Enrolled, An Act,

Relating to energy infrastructure; to add Article 2E, Chapter 10, Title 41, commencing with Section 41-10-48.01, to the Code of Alabama 1975; to enact the Powering Growth Act; to establish the Alabama Energy Infrastructure Bank as a division within the State Industrial Development Authority for the purpose of selecting and assisting in the financing of qualified energy infrastructure projects necessary to meet the energy demands of economic development and industrial recruitment projects throughout the State of Alabama; to provide for the sources of capitalization and liability of the bank; to provide procedures for the issuance of loans to electric providers; to authorize the bank to issue bonds under certain conditions, secured by various revenue sources made available to the bank; to establish the Strategic Energy Infrastructure Development Fund within the State Treasury under the State Industrial Development Authority and provide for its funding; to authorize the State Industrial Development Authority to use the fund to purchase or otherwise obtain long lead-time energy infrastructure equipment and support for industrial site needs throughout the state; to establish a process to sell and distribute equipment procured by the fund; and to require the authority to submit an annual report to the Governor and Legislature regarding the activities of the bank and use of the strategic development fund.

BE IT ENACTED BY THE LEGISLATURE OF ALABAMA:

## SB304 Enrolled

Section 1. Article 2E, Chapter 10, Title 41, commencing with Section 41-10-48.01, is added to the Code of Alabama 1975, as follows:

§41-10-48.01

This act shall be known and may be cited as the Powering Growth Act.

§41-10-48.02

(a) The Legislature finds and declares the following:

(1) That Alabama's new strategic economic growth plan for the next decade identifies 10 target sectors, including metals and advanced materials, chemical manufacturing, and technology, that utilize a significant amount of energy and will require expansions and upgrades of existing utility infrastructure to meet the increased demand for energy.

(2) That Alabama's peak energy demand is expected to grow by 6GW in the next decade, a 33 percent increase from today, according to the State Infrastructure Study.

(3) That significant lead times exist for critical energy infrastructure components, that will be necessary to meet the growing demand for energy and continued economic growth.

(4) That it is in the best interest of the state to accelerate energy infrastructure development necessary to sustain economic growth by:

a. Providing financing and support to the various electric providers in the state through loans and other financial assistance to accelerate the rate of energy infrastructure development; and

## SB304 Enrolled

b. Procuring energy infrastructure components with long-lead times to make available to the various electric providers in the state for more rapid deployment.

(b) By the passage of this act, it is the intent of the Legislature to:

(1) Prescribe certain additional powers of the State Industrial Development Authority;

(2) Create the Alabama Energy Infrastructure Bank and the Alabama Energy Infrastructure Fund to provide strategic financing for energy infrastructure projects that support economic growth; and

(3) Establish for the Strategic Energy Infrastructure Development Fund to address long-lead times for critical energy infrastructure components.

§41-10-48.03

For the purposes of this act, the following words shall have the following meanings:

(1) AUTHORITY. The State Industrial Development Authority.

(2) BONDS. Includes bonds, notes, or other evidence of indebtedness except as otherwise provided in this article.

(3) ELECTRIC PROVIDER. The same meaning as provided in Section 37-16-3 and shall also include the Tennessee Valley Authority and an authority as defined in Section 11-50A-1.

(4) ELIGIBLE PROJECT. Energy infrastructure projects and associated costs that either:

a. Support a qualifying project approved by the Department of Commerce pursuant to Section 40-18-372;

## SB304 Enrolled

b. Provide or enhance the energy infrastructure necessary for development of a site approved by the State Industrial Development Authority for grants pursuant to Article 2D, Chapter 10, Title 41; or

c. Support the construction, enhancement, expansion, or upgrade of energy infrastructure projects in areas where the energy infrastructure is anticipated to facilitate future economic development as determined by the authority, with an emphasis on such development in rural areas.

This term shall not include funding for activities associated with the general maintenance, repair, or upkeep of energy infrastructure.

(5) ENERGY BANK. The Alabama Energy Infrastructure Bank.

(6) ENERGY FUND. The Alabama Energy Infrastructure Fund established under Section 41-10-48.04.

(7) ENERGY INFRASTRUCTURE PROJECTS. Generation infrastructure, transmission infrastructure, and projects addressing long-lead items.

(8) FINANCIAL ASSISTANCE. Includes, but is not limited to, contractual guarantees supporting eligible projects, credit enhancement, capital or debt reserves for bonds or debt instrument financing, interest rate subsidies, provision of letters of credit and credit instruments, provision of bond or other debt financing instrument security, reimbursable or other contractual arrangements, and other lawful forms of financing and methods of leveraging funds that are approved by the authority, and in the case of federal funds, as allowed by

## SB304 Enrolled

federal law.

(9) FINANCING AGREEMENT. Any agreement entered into between the authority and an electric provider pertaining to a loan or other financial assistance and other provisions as the authority may determine. The term includes, without limitation, a loan agreement, trust indenture, security agreement, reimbursement agreement, guarantee agreement, bond or note, ordinance or resolution, or similar instrument.

(10) LOAN. An obligation subject to repayment which is provided by the authority to an electric provider for all or a part of the costs of an eligible project. A loan may be disbursed in anticipation of reimbursement for or direct payment of costs of an eligible project or to refinance temporary financing used to pay costs of an eligible project.

(11) LOAN OBLIGATION. A bond, note, or other evidence of an obligation issued by an electric provider.

(12) LONG-LEAD ITEMS. Equipment, components, or materials necessary for energy infrastructure projects that require extended manufacturing, procurement, or delivery times of at least 24 months and with a total cost that exceeds two hundred fifty thousand dollars (\$250,000), as may be approved by the authority.

(13) PERMITTED INVESTMENTS. Includes any of the following:

a. Certificates of deposit, savings accounts, deposit accounts, or money market deposits that are any of the following:

1. Secured as provided in Chapter 14A of Title 41.

## SB304 Enrolled

2. Fully insured by the FDIC.

3. Made with a bank whose unsecured, long-term obligations are rated by at least one nationally recognized securities rating agency in one of the three highest rating categories assigned by that rating agency.

b. Direct obligations of, or obligations the full and timely payment of which is guaranteed by, the United States of America, including unit investment trusts and mutual funds that invest solely in such obligations.

c. Bonds, debentures, notes, pass through securities, or other obligations issued or guaranteed by any federal agency or corporation which has been or may hereafter be created by or pursuant to an act of the Congress of the United States of America as an agency or instrumentality thereof if such obligations are either of the following:

1. Backed by the full faith and credit of the United States of America.

2. Rated by at least one nationally recognized securities rating agency in one of the three highest rating categories assigned by the rating agency.

d. Commercial paper which is rated not less than "P-1" by Moody's Investor Service or "A-1+" by Standard and Poor's at the time of purchase.

e. Money market funds rated by at least one nationally recognized securities rating agency in one of the three highest rating categories assigned by that rating agency.

f. Bonds, warrants, notes, or other obligations issued by any state, county, or municipality that are rated by at

## SB304 Enrolled

169 least one nationally recognized securities rating agency in  
170 one of the three highest rating categories assigned by that  
171 rating agency.

172 g. Investment agreements, including, without  
173 limitation, guaranteed investment contracts, repurchase  
174 agreements, and forward purchase agreements, provided that all  
175 of the following are satisfied:

176 1. Any securities purchased or held pursuant to such  
177 agreement are otherwise permitted investments.

178 2. The counterparty's long-term debt obligations are  
179 rated by at least one nationally recognized securities rating  
180 agency in one of the three highest rating categories assigned  
181 by that rating agency.

182 3. The securities, if purchased, are owned by the bank  
183 or a trustee for any of the bank's obligations and are held by  
184 the bank, the trustee, or a third-party custodian acceptable  
185 to the bank or, if held as collateral, are held by the bank,  
186 the trustee, or a third-party custodian acceptable to the bank  
187 with a perfected first security interest in such collateral.

188 h. Investment or cash management agreements with a  
189 commercial bank whose senior long-term debt obligations are,  
190 at the time of the acquisition of any such investment or cash  
191 management agreement for the account of the bank, rated by at  
192 least one nationally recognized securities rating agency in  
193 one of the three highest rating categories assigned by that  
194 rating agency, or with a commercial bank that is owned or  
195 controlled by a bank holding company whose senior long-term  
196 debt obligations, at the time of the acquisition of any such

## SB304 Enrolled

investment or cash management agreement for the account of the bank, are rated by at least one nationally recognized securities rating agency in one of the three highest rating categories assigned by that rating agency.

(14) REVENUES. When used with respect to the authority, any receipts, fees, income, or other payments received or to be received by the authority as a result of the authority's activities under this article including, without limitation, receipts and other payments deposited with the authority and investment earnings on its funds and accounts.

(15) RURAL AREA. Any county within the state not having a population in excess of 150,000 inhabitants as determined by reference to the last federal decennial census.

(16) STRATEGIC DEVELOPMENT FUND. The Strategic Energy Infrastructure Development Fund established under Section 41-10-48.12.

(17) TRANSMISSION INFRASTRUCTURE. Facilities and systems responsible for transporting electricity from generation sources and for also processing, converting, and delivering such electricity into voltages required for the eligible project, including, but not limited to, high-voltage transmission lines, transformers, breakers, relays, substations, interconnection facilities, and associated equipment

§41-10-48.04

(a) There is created within the authority a division to be known as the Alabama Energy Infrastructure Bank.

(b) In recognition of increasing concerns regarding

## SB304 Enrolled

energy capacity and the resilience of Alabama's energy infrastructure for current and future needs, the corporate purpose of the energy bank is to support the economic growth of the state by identifying and supporting energy infrastructure projects for eligible projects in Alabama.

(c) The energy bank will accomplish these goals through the utilization of bond financing and other financial assistance for energy infrastructure projects.

(d) The energy bank will utilize existing and future revenue sources in order to create the necessary funding streams to secure bond financing and other financial assistance that will allow the state to enhance and expand its energy infrastructure.

(e) Through the energy bank, the authority may act as a state energy financing institution as that term is defined 42 U.S.C. § 16511(7)(A), or any successor statute, for purposes of obtaining federal support for Alabama energy infrastructure projects.

(f) The Alabama Energy Infrastructure Fund is created in the State Treasury. All proceeds from the revenues designated to the energy fund, pursuant to this act and any other provision of law, shall be deposited into the energy fund to be expended only as provided in this act.

(g) In undertaking its responsibilities under this Act, the authority may request that the Alabama Growth Alliance review and provide feedback on authority programs and activities which may include, but is not limited to, their alignment with the state's economic growth priorities.

## SB304 Enrolled

253           §41-10-48.05

254           In addition to the powers granted to it in Section  
255   41-10-26, Sections 41-10-37 through 41-10-43, Sections  
256   41-10-44.1 through 41-10-44.15, and Sections 41-10-47.01  
257   through 41-10-47.09, with respect to the energy bank and the  
258   energy fund, the authority shall have the following additional  
259   powers to:

260           (1) Make loans or provide other financial assistance to  
261   electric providers to finance or reduce the costs of eligible  
262   projects, to collect fees and charges related to such loans or  
263   other financial assistance, and to acquire, hold, pledge, and  
264   sell loan obligations at prices and in a manner as the  
265   authority determines advisable.

266           (2) Enter into contracts, arrangements, and agreements  
267   with electric providers and other persons and execute and  
268   deliver all financing agreements and other instruments  
269   necessary or convenient to the exercise of the powers granted  
270   in this article.

271           (3) Enter into agreements with a department, agency, or  
272   instrumentality of the United States of America or of this  
273   state or another state for the purpose of planning, securing,  
274   and providing for the financing of eligible projects.

275           (4) Enter into contracts, arrangements, or agreements  
276   with external experts for the purpose of providing advice  
277   regarding the operations of the bank and viability of the  
278   fund, as well as the necessity of project applications from  
279   the bank and the strategic development fund.

280           (5) Procure insurance, guarantees, letters of credit,

## SB304 Enrolled

and other forms of collateral or security or credit support from any public entity, including any department, agency, or instrumentality of the United States of America or this state, for the payment of any bonds issued by it, including the power to pay premiums or fees on any insurance, guarantees, letters of credit, and other forms of collateral or security or credit support.

(6) Collect or authorize the trustee under any trust indenture securing any bonds to collect amounts due under any loan obligations owned by it, including taking the action required to obtain payment of any sums in default.

(7) Unless restricted under any agreement with holders of bonds, consent to any modification with respect to the rate of interest, time, and payment of any installment of principal or interest, or premium, if any, or any other term of any loan obligations owned by it or held by the applicable indenture trustee.

(8) Borrow money through the issuance of bonds and other forms of indebtedness as provided in this article, and to secure the repayment of the same as provided in this article including by pledging or granting of a security interest in the loan obligation.

(9) Expend funds credited to the authority resulting from its operations of the energy bank as the authority may determine as being necessary or desirable for the costs of administering the operations of the energy bank.

(10) Procure insurance against losses in connection with its property, assets, or activities including insurance

## SB304 Enrolled

309 against liability for its acts or the acts of its employees or  
310 agents or to establish cash reserves to enable it to act as a  
311 self-insurer against any and all such losses.

312 (11) Apply for, receive, and accept from any source,  
313 aid, grants, and contributions of money, property, labor, or  
314 other things of value to be used to carry out the purposes of  
315 this article subject to the conditions upon which the aid,  
316 grants, or contributions are made.

317 (12) Do all other things necessary or convenient to  
318 carry out the purposes and powers conferred by this act.

319 §41-10-48.06

320 (a) In considering applications for eligible projects,  
321 the authority may request additional input from external  
322 experts as to the urgency of the energy infrastructure  
323 project, the ability of the applicant to execute the project  
324 within the stated time frame, and other assistance as  
325 determined by the authority.

326 (b) The total aggregate amount of loans or other  
327 financial assistance provided by the bank in any year shall be  
328 limited to an amount that would not jeopardize the viability  
329 of the fund, as determined by the authority with the advice of  
330 external experts.

331 (c) In selecting eligible projects, the authority shall  
332 consider, with assistance from external experts, project  
333 feasibility and the degree of financial risk to be assumed by  
334 the authority.

335 (d) The authority shall ensure that no electric  
336 provider receives more than 40 percent of the loan or

## SB304 Enrolled

financial assistance funds provided by the bank in each calendar year unless a joint application of electric provider is made; provided, however, in no event (even with a joint application) shall more than 50 percent of the loan or financial assistance funds provided by the bank in each calendar year be received by any single electric provider.

(e) The authority shall reserve at least 40 percent of the aggregate amount available in each calendar year for loans and other financial assistance from the energy bank for use for energy infrastructure projects in rural areas. In the event that applications are not received for energy infrastructure projects in the rural areas by the close of the second quarter of the applicable calendar year, such reservation shall no longer apply and such funds may be used for other energy infrastructure projects; provided, however, that, in failing to apply for an energy infrastructure project by the end of the second calendar quarter of a calendar year, an electric provider is not prohibited from subsequently applying and receiving an allocation of funds for energy infrastructure projects in rural areas later in that calendar year.

(f) Any nonpublic or proprietary information included in an application by an economic development prospect or electric provider shall be subject to the Department of Commerce's protections for such information, provided in Section 41-29-3.

§41-10-48.07

(a) (1) An electric provider (or more than one electric

## SB304 Enrolled

providers in a joint application) may apply to the authority for the purposes of obtaining financial assistance to support an eligible project. An application under this subsection shall include the following:

a. A detailed summary of the proposed energy infrastructure project, including location, scope, timeline, and total estimated cost.

b. Identification of the energy infrastructure project to be funded.

c. Anticipated job creation, business attraction, or commercial or industrial expansion to be facilitated by the energy infrastructure project as applicable.

d. Projected load demand and anticipated capacity increases.

(2) An application under this subsection for more than one electric provider shall also include:

a. Identification of all participating electric providers and designation of a lead applicant responsible for administration of funds; and

b. Explanation of how participating electric providers will collaborate on energy infrastructure project implementation.

(3) During the term that the financial assistance is being provided under this subsection, the electric provider shall submit an annual report to the authority detailing the progress of the approved eligible project and the use of the financial assistance provided to the electric provider.

(b) (1) An electric provider (or jointly with one or

## SB304 Enrolled

more other electric providers) and an economic development prospect may submit a joint application for a long-lead item or energy infrastructure project if the provision of financial assistance from the energy bank will facilitate an eligible project for a new or expanding industrial or commercial facility within the state.

(2) A joint application under this subsection must include:

a. A statement from the electric provider (or joint electric providers in the case of a joint application) detailing the infrastructure improvements necessary to meet the eligible prospect's energy requirements; and

b. An assessment of economic impact, including projected job creation, capital investment, and state and local sales and property tax revenues generated from the eligible project determined after taking into account any abatements granted.

(3) During the term that the financial assistance is being provided under this subsection, the economic development prospect and the electric provider shall submit an annual report to the authority detailing the progress of the approved eligible project and the use of the financial assistance provided.

(4) The authority may condition the granting of the application upon the provision of performance assurance or security by the economic development prospect.

(5) If the economic development prospect withdraws, fails to commence operations, or materially alters its energy

## SB304 Enrolled

needs, the authority may enforce a contractual obligation against the economic development prospect for the authority's provision of financial assistance including draws on any performance assurance or security provided.

§41-10-48.08

(a) The authority may use the following sources to capitalize the energy fund and to carry out its purposes of this section:

(1) Tobacco settlement funds from the Alabama 21st Century Fund.

(2) Federal funds made available to the state for the energy bank or for eligible projects.

(3) Contributions and donations from public and private entities and any other source as may become available to the authority, including, but not limited to, appropriations from the Legislature.

(4) All monies paid or credited to the authority, by contract or otherwise, payments of principal and interest on loans or other financial assistance made from the authority, and interest earnings which may accrue from the investment or reinvestment of the authority's monies.

(5) Proceeds from the issuance of bonds as provided in this article.

(6) Other lawful sources as determined appropriate by the authority.

(b) Any pledge of the revenues and amounts described in subsection (a) to provide funds for payment of debt service on bonds issued by the authority or to pay obligations of the

## SB304 Enrolled

authority with respect to other financial assistance shall continue until the bonds have been fully repaid or the authority's obligations with respect to the other financial assistance have terminated, unless the trust indenture, financing agreement, or other related instrument providing for the pledge expressly provides that the pledge may be terminated earlier or otherwise limited by the authority.

§41-10-48.09

(a) Whenever the authority determines that it shall become necessary that monies be raised for eligible projects, including monies to be used to refund any bonds then outstanding, the authority may issue bonds as provided in this article.

(b) The authority may pledge any of its revenue or funds to the payment of its bonds, subject to any prior pledges for other outstanding bonds or other financial assistance of the energy bank. Bonds may be secured by a pledge of any loan obligation owned by the authority or held by an indenture trustee, any grant, contribution, or guaranty from the United States of America, the state, or any corporation, association, institution, or person, any other financial assistance provided by the authority, any bond insurance, guarantees, letters of credit, or other forms of credit enhancement purchased or otherwise obtained by the authority from any public or private entity, any other property or assets of the authority, or a pledge of or grant of security interest in any money, income, or revenue of the authority from any source.

## SB304 Enrolled

(c) Notwithstanding any provision of law to the contrary, the total aggregate principal amount of bonds issued by the authority under this article shall not exceed one billion dollars (\$1,000,000,000). This debt limitation shall apply solely to bonds issued for eligible project financing purposes under this article and shall not be construed to limit any other bonding authority granted to the authority under separate provisions of law.

§41-10-48.10

Bonds or other financial assistance issued by the authority shall not constitute an obligation or debt of this state, or any of its political subdivisions, but shall be limited obligations of the authority payable solely from the revenue, money, or property of the authority pledged for such purpose as provided in this article. Any bonds issued or other financial assistance of the authority do not constitute an indebtedness of the state or any of its political subdivisions within the meaning of any constitutional or statutory limitation, and neither the full faith and credit nor the taxing power of the state, or any of its political subdivisions, is pledged to the payment thereof. No member of the authority or any person executing bonds, other financial assistance, or other obligations of the authority is liable personally thereon by reason of their issuance or execution. Each bond, other financial assistance, and other obligation issued under this article shall contain on its face a statement to the effect of the following:

(1) The instrument is not a general obligation of the

## SB304 Enrolled

authority but is a limited obligation of the authority payable solely from the revenue, money, or property of the authority pledged.

(2) The instrument is not an obligation or debt of the state, or any of its political subdivisions, and neither the full faith and credit nor the taxing power of the state, or any of its political subdivisions, is pledged to the payment of the instrument.

(3) The authority does not have taxing power.

§41-10-48.11

(a) (1) The bonds of the authority must be authorized by a resolution of the authority.

(2) The bonds shall bear the date and mature at the time which the resolution provides, except that no bond may mature more than 40 years from its date of issue.

(3) The bonds may be in the denominations, be executed in the manner, be payable in the medium of payment, be payable at the place and at the time, and be subject to redemption or repurchase and contain other provisions determined by the authority prior to their issuance.

(4) The bonds may bear interest payable at a time and at a rate as determined by the authority.

(5) Bonds may be sold by the authority at public or private sale at the price it determines and approves.

(b) (1) Bonds may be secured by a trust indenture between the authority and a corporate trustee, which may be the State Treasurer or any bank having trust powers or any trust company doing business in this state. A trust indenture

## SB304 Enrolled

may contain provisions for protecting and enforcing the rights and remedies of the bondholders which are reasonable and proper, including covenants setting forth the duties of the authority in relation to the exercise of its powers and the custody, safekeeping, and application of its money. The authority may provide by the trust indenture for the payment of the proceeds of the bonds and all or any part of the revenues of the authority to the trustee under the trust indenture or to some other depository, and for the method of its disbursement with safeguards and restrictions prescribed by it. All expenses incurred in performing the obligations of the authority under the trust indenture may be treated as part of its operating expenses.

(2) Any resolution or trust indenture pursuant to which bonds are issued may contain provisions which are part of the contract with the bondholders of the bonds and which include the following:

a. Pledging specific revenues of the authority to secure the payment of the bonds.

b. Pledging specific assets of the authority, including loan obligations owned by it to secure the payment of the bonds.

c. The use and disposition of the gross income from, and payment of the principal of, and interest on loan obligations owned by the authority or held by an indenture trustee.

d. The establishment of reserves, sinking funds, and other funds and accounts, and their regulation and

## SB304 Enrolled

561 disposition.

562 e. Limitations on the purposes to which the proceeds  
563 from the sale of the bonds may be applied, and limitations on  
564 pledging the proceeds to secure the payment of the bonds.

565 f. Limitations on the issuance of additional bonds, the  
566 terms upon which additional bonds may be issued and secured,  
567 and the refunding of outstanding or other bonds.

568 g. The procedure, if any, by which the terms of any  
569 contract with bondholders may be amended or abrogated, the  
570 amount of bonds, if any, the holders of which must consent to,  
571 and the manner in which any consent may be given.

572 h. Limitations on the amount of money to be expended by  
573 the authority for its operating expenses.

574 i. Vesting in a trustee property, rights, powers, and  
575 duties as the authority may determine, limiting or abrogating  
576 the right of bondholders to appoint a trustee, and limiting  
577 the rights, powers, and duties of the trustee.

578 j. Defining the acts or omissions which constitute a  
579 default, the obligations or duties of the authority to the  
580 holders of the bonds, and the rights and remedies of the  
581 holders of the bonds in the event of default, including as a  
582 matter of right the appointment of a receiver, and all other  
583 rights generally available to creditors.

584 k. Requiring the authority or the trustee under the  
585 trust indenture to take any and all other action to obtain  
586 payment of all sums required to eliminate any default as to  
587 any principal of and interest on loan obligations owned by the  
588 authority or held by a trustee, which may be authorized by the

## SB304 Enrolled

589 laws of this state.

590 1. Any other matter relating to the terms of the bonds  
591 or the security or protection of the holders of the bonds  
592 which may be considered appropriate.

593 (c) (1) Any pledge made by the authority to secure its  
594 obligations with respect to bonds or other financial  
595 assistance is valid and binding from the time the pledge is  
596 made. The revenue, money, or property pledged and received by  
597 the authority is immediately subject to the lien of the pledge  
598 without any physical delivery or further act. The lien of any  
599 pledge is valid and binding as against all parties having  
600 claims of any kind in tort, contract, or otherwise against the  
601 authority, irrespective of whether the parties have notice of  
602 the pledge.

603 (2) No recording or filing of the resolution  
604 authorizing the issuance of bonds or other financial  
605 assistance, the trust indenture or other financing agreement  
606 securing the bonds or other financial assistance, or any other  
607 instrument including filings under the Uniform Commercial Code  
608 is necessary to create or perfect any pledge or security  
609 interest granted by the authority to secure any bonds or other  
610 financial assistance.

611 (d) The authority, subject to agreements with  
612 bondholders as may then exist, may purchase outstanding bonds  
613 of the authority with any available funds, at any reasonable  
614 price. If the bonds are then redeemable, the price shall not  
615 exceed the redemption price then applicable plus accrued  
616 interest to the next interest payment date.

## SB304 Enrolled

617 (e) Bonds of the authority shall be in a form and shall  
618 be executed in a manner prescribed by the authority.

619 (f) If any of the directors or officers of the  
620 authority cease to be directors or officers before the  
621 delivery of any bonds signed by them, their signatures or  
622 authorized facsimile signatures are nevertheless valid and  
623 sufficient for all purposes as if they had remained in office  
624 until the delivery of the bonds.

625 (g) Subsequent amendments to this article may not limit  
626 the rights vested in the authority with respect to any  
627 agreements made with, or remedies available to, the holders of  
628 bonds issued under this article before the enactment of the  
629 amendments until the bonds, with all premiums and interest on  
630 them, and all costs and expenses in connection with any  
631 proceeding by or on behalf of the holders, are fully satisfied  
632 and discharged.

633 (h) Notwithstanding the exemptions provided in Sections  
634 41-10-28 and 41-10-44.13, any bonds issued by the authority  
635 under this article, the transfer of bonds, and the income from  
636 them, are free from taxation and assessment of every kind by  
637 the state and by the local governments and other political  
638 subdivisions of the state.

639 (i) (1) The bonds issued by the authority are legal  
640 investments in which all public officers or public bodies of  
641 the state and its political subdivisions; all municipalities  
642 and political subdivisions; all insurance companies and  
643 associations and other persons carrying on insurance business;  
644 all banks, bankers, banking associations, trust companies,

## SB304 Enrolled

savings banks, savings associations, including savings and loan association investment companies, and other persons carrying on a banking business; all administrators, guardians, executors, trustees, and other fiduciaries; and all other persons who are now or may be authorized in the future to invest in bonds or other obligations of the state, may invest funds in their control or belonging to them.

(2) The bonds of the authority are also securities which may be deposited with and received by all public officers and bodies of the state or any agency or political subdivision of the state and all municipalities and public corporations for any purpose for which the deposit of bonds or other obligations of the state is now or may later be required by law.

(j)(1) The granting of other financial assistance by the authority shall be authorized by a resolution of the authority.

(2) The authority may execute instruments and enter into financing agreements, including, without limitation, a trust indenture between the authority and a corporate trustee, which may be the State Treasurer or any bank having trust powers or any trust company doing business in this state, containing the terms and conditions as the authority shall determine in connection with the provision of other financial assistance and securing its obligations with respect to other financial assistance.

(3) The authority may pledge any of its revenues or funds to the payment of other financial assistance provided by

## SB304 Enrolled

the authority, subject to any prior pledges for outstanding bonds or other financial assistance of the authority. Other financial assistance may be secured by a pledge of any loan obligation owned by the authority or held by an indenture trustee, any grant, contribution, or guaranty from the United States of America, the state, or any corporation, association, institution, or person, any other property or assets of the authority, or a pledge or grant of a security interest in or any money, income, or revenue of the authority from any source.

(k) Neither the authority, nor any member, officer, employee, or committee of the authority acting on behalf of it, while acting within the scope of authority granted by this article, is subject to any liability resulting from carrying out any of the powers given in this article, unless the officer or employee acted in an unreasonable or reckless manner.

§41-10-48.12

(a) For the benefit of the state and the residents of the state, there is created in the State Treasury an irrevocable fund named the Strategic Energy Infrastructure Development Fund. From the date of enactment through the fiscal year ending September 30, 2030, the funding under the strategic development fund shall be utilized for the infrastructure improvements and items permitted under Section 41-10-48.12.1 and for other energy infrastructure projects, in each case located in rural areas, with any funds remaining in the strategic development fund as of September 30, 2030,

## SB304 Enrolled

carried over and continued to be used for such purposes until fully depleted. Of the funding for the strategic development fund for fiscal years ending after September 30, 2030, excluding any carry-over funds as mentioned in the immediately preceding sentence, 50 percent shall be used for the infrastructure development in rural areas described in Section 41-10-48.12.1 and 50 percent shall be used for other energy infrastructure projects wherever located in the state. In the event applications are not received for infrastructure development projects in the rural areas in fiscal years after September 30, 2030 by the close of the third quarter of any fiscal year, the funds may revert and be used for energy infrastructure projects wherever located in the state.

(b) The strategic development fund shall be under the management and control of the authority, and all powers necessary or appropriate for the management and control of the strategic development fund shall be vested solely in the authority. The authority may make whatever representations and covenants it finds reasonable or necessary for federal grant applications and agreements, and it may take whatever actions it deems reasonable or necessary to implement such grants.

(c) The strategic development fund shall be funded initially with an appropriation of fifty million dollars (\$50,000,000) from the Alabama 21st Century Fund, with additional funding sources including:

(1) Revenue sources as directed by, and at the discretion of, the Legislature;

(2) Appropriations as directed by, and at the

## SB304 Enrolled

discretion of, the Legislature;

(3) Federal grants and other financing which the authority determines will have the effect of advancing economic development in Alabama;

(4) Proceeds of any gifts, grants, or contributions; and/or

(5) Any other lawful sources.

(d) The strategic development fund shall be administered in accordance with this section. All revenues received by the strategic development fund shall be deposited in the fund upon receipt and may be invested by the authority and withdrawn and expended by the authority in a manner consistent with the powers granted to the authority.

(e) Funding shall be provided to projects in accordance with Section 41-10-48.12.1 in the form of financial assistance or grants.

### §41-10-48.12.1

(a) (1) An electric provider and an economic development prospect or upon electric providers jointly may submit a joint application for funding from the strategic development fund if the provision of funding from the strategic development fund will facilitate an economic development project for a new or expanding industrial or commercial facility within the state subject to the requirement for uses in rural areas as set forth in subsection 41-10-48.12(a).

(2) A joint application under this subsection must include:

a. A statement from the electric provider detailing the

## SB304 Enrolled

757 infrastructure improvements necessary to meet the prospect's  
758 energy requirements; and

759       b. An assessment of economic impact, including  
760 projected job creation, capital investment, and state and  
761 local sales and property tax revenues generated from the  
762 strategic development project.

763       (3) During the term that the funding is being provided  
764 under this subsection, the economic development prospect and  
765 the electric provider shall submit an annual report to the  
766 authority detailing the progress of the approved strategic  
767 development project and the use of the financial assistance  
768 provided.

769       (4) If the economic development prospect withdraws,  
770 fails to commence operations, or materially alters its energy  
771 needs, the authority may enforce a contractual obligation  
772 against the economic development prospect for the authority's  
773 provision of funding.

774       (b) The strategic development fund shall be used for  
775 the following purposes only:

776       (1) For the authority to enter into priority production  
777 placement agreements with key manufacturers of long lead-time  
778 electrical equipment, including, but not limited to,  
779 transformers, substations, switchgear, and specialized circuit  
780 breakers for an economic development prospect being recruited  
781 to or expanding in the state.

782       (2) Notwithstanding subsection (c), to provide funding  
783 for site-specific infrastructure development, including, but  
784 not limited to, the extension of transmission lines and

## SB304 Enrolled

pipelines; enhancements or expansions to substation capacity; the acquisition of rights-of-way for key transmission and pipeline infrastructure located near key industrial or commercial sites, as identified by the authority for development; and transformers, breakers, and other facilities necessary for processing, converting, and delivering such electricity into voltages necessary or useful for the economic development project.

(c) An electric provider shall not be eligible to be a direct recipient of funding from the strategic development fund.

(d) Any nonpublic or proprietary information included in an application by an economic development prospect or electric provider shall be subject to the Department of Commerce's protections for such information, provided in Section 41-29-3.

### §41-10-48.13

(a) Following the close of each state fiscal year, the authority shall submit an annual report on the activities of the energy bank and use of the strategic development fund for the preceding year to the Governor and to the Legislature. The authority also shall submit an annual report to the appropriate federal agency in accordance with requirements of any federal program.

(b) The authority shall be subject only to audits as required by existing state law and applicable federal regulations.

### §41-10-48.14

## SB304 Enrolled

813           The authority may enter into such contracts,  
814 agreements, and investments and may otherwise expend monies  
815 without compliance with Chapter 2 of Title 39, Article 5,  
816 Chapter 4 of Title 41, or Chapter 16 of Title 41.

817           §41-10-48.15

818           (a) This article, being for the welfare of this state  
819 and its inhabitants, shall be liberally construed to affect  
820 the purposes specified.

821           (b) In no event does this article authorize any  
822 electric provider to provide retail electric service except as  
823 permitted under the applicable provisions of Chapter 14 of  
824 Title 37. Nothing in this article is intended to amend,  
825 repeal, enlarge, or otherwise affect Chapter 14 of Title 37.

826           Section 2. This act shall become effective on June 1,  
827 2025.
