Section 2. (a) For purposes of this section, the following terms have the following meanings:

(1) SOLAR POWER FACILITY. A large-scale, ground-mounted installation of photovoltaic panels that are designed and intended to generate 125 megawatts or more of electricity using solar power for use off-site or sale to a third party, including all equipment and facilities required to operate the facility and transmit generated electricity.

(2) WIND POWER FACILITY. A large-scale installation of wind turbines that are designed to generate electricity using wind power for use off-site or sale to

25 a third party, including all equipment and facilities
26 required to operate the facility and transmit generated
27 electricity.

28 (b) (1) Any person seeking to establish a solar power
29 facility or a wind power facility in this state shall
30 submit a proposal for the facility to the Public Service
31 Commission.

32 (2) Upon receipt of the proposal, the commission
33 shall publicly give notice of the proposal. After notice
34 is provided, the commission shall provide the public an
35 opportunity to comment on the proposed facility through
36 the electronic or paper submission of written comments.
37 The commission shall hold open the comment period
38 regarding any proposed wind power facility or solar power
39 facility for at least 60 days.

40 (c) (1) After the comment period, the commission shall
41 hold a public hearing regarding the proposed solar power
42 facility or wind power facility.

43 (2) The hearing shall be conducted in a manner that
44 facilitates public participation and provides a review of
45 key issues that the commission believes will be helpful
46 to the public in understanding any externality of the
47 proposed facility.

48 (d) The commission, through its staff, shall provide

49 notice of each hearing regarding any proposed solar power
50 facility or wind power facility to the public in
51 compliance with Section 36-25A-3, Code of Alabama 1975.
