

## **FISCAL NOTE**

### **House Bill 38**

Committee: Ports, Waterways and Intermodal Transit    Sponsor: Representative Chip Brown

Analyst: Mathieu Fuller

Date: 01/14/2026

---

**House Bill 38** as reported by the Committee on Ports, Waterways, and Intermodal Transit would increase the obligations of the Dauphin Island Sea Lab by an undetermined amount to provide administrative support to the Alabama Seagrass Restoration Task Force created by this bill. These obligations may be offset in part or in whole by the retention of funds appropriated for administrative costs expended by the sea lab pursuant to the provisions of this bill.
