Senate Bill 63 (Act 2026-589) as enacted increases the administrative obligations of the Alabama Department of Insurance to adopt rules regarding health benefit plan providers' use of artificial intelligence in utilization review. However, any increased obligations could be offset partially by: (1) administrative fines, not to exceed \$5,000, imposed for violating the provisions of this act; and (2) reimbursements by health benefit plan providers for administrative expenses incurred to investigate and enforce the provisions of this act.
