

FISCAL NOTE

House Bill 178

Committee: Ways and Means Education

Sponsor: Representative Danny Garrett

Analyst: John Friedenreich

Date: «Released Date»

House Bill 178 as introduced could increase or decrease the obligations of certain city boards of education that elect to form a consolidated school, as provided by this bill, dependent on the difference in: 1) any costs or savings associated with forming and operating such school, and; 2) the cost of otherwise operating non-consolidated schools under current law. This bill would also increase the administrative obligations of the State Board of Education to adopt rules to implement the provision of this bill.

This bill would not otherwise directly affect state of local funding.
