To Whom It May Concern,

In accordance with Section 39-2-2(d)(2), *Ala. Code* 1975, as amended by Act No. 2023-497, the Department has reviewed the competitive bidding process used by the National Cooperative Purchasing Alliance ("NCPA"), a national, governmental purchasing cooperative, for the contracts awarded herein below. The Department did not identify any matters that were contrary to proper purchasing procedures or routine governmental procurement practices. Each contract was awarded by NCPA pursuant to the competitive bid laws of the State of Texas.

Based on the Department's review, the competitive bid process used by NCPA is approved for use through **December 31, 2025**. This approval authorizes the purchase of air conditioning or heating units and systems from an Alabama vendor who has been granted approved vendor status as part of the following contract awards:

- Johnson Controls, Inc. (#02-90) (current contract expires August 31, 2025)
- Midwest Mechanical (#02-91) (current contract expires August 31, 2025)

*****This approval does not authorize installation, labor, or services related thereto, which must be bid in compliance with Title 39.**

Prior to utilizing NCPA, each governmental entity must verify that the air conditioning or heating units to be purchased are either not at the time available on the state purchasing program or are available at a price equal to or less than that on the state purchase program. See Section 39-2-2(d)(2)b, *Ala. Code* 1975. Further, upon request, the vendor is required to provide the governmental entity with a report of sales made during the previous 12-month period. See Section 39-2-2(d)(2)d, *Ala. Code* 1975.

Should the Department receive notice that NCPA or its awarded vendors are allowing Alabama governmental entities to make unauthorized purchases or other unlawful business transactions, NCPA's competitive bid process approval will subject to immediate revocation by the Department.

If the Department can be of further assistance, please let us know.

Sincerely,
