To Whom It May Concern,

In accordance with Section 39-2-2(e)(2), *Ala. Code* 1975, as amended by Act No. 2023-497, the Department has reviewed the competitive bidding process used by Omnia Partners Public Sector (“Omnia”), a national purchasing cooperative, for the contracts awarded herein below. The Department did not identify any matters that were contrary to proper purchasing procedures or routine governmental procurement practices. Each contract was awarded by a governmental entity pursuant to the competitive bid laws in the state of the awarding authority.

Based on the Department’s review, the competitive bid process used by Omnia is approved for use through **December 31, 2026**. This approval authorizes the purchase of air conditioning or heating units and systems from an Alabama vendor who has been granted approved vendor status as part of the following contract awards:

- Trane (RFP#22-15)
- Daikin Applied Americas, Inc. (RFP#24-09)
- TDIndustries, Inc. (RFP#24-09)

*****This approval does not authorize installation, labor, or services related thereto, which must be bid in compliance with Title 39.**

Prior to utilizing Omnia, each governmental entity must verify that the air conditioning or heating units and systems to be purchased are either not at the time available on the state purchasing program or are available at a price equal to or less than that on the state purchase program. See Section 39-2-2(e)(2)a.2, *Ala. Code* 1975. Further, upon request, the vendor is required to provide the governmental entity with a report of sales made during the previous 12-month period. See Section 39-2-2(e)(2)a.4, *Ala. Code* 1975.

Should the Department receive notice that Omnia, its awarding authorities, or its awarded vendors are allowing Alabama governmental entities to make unauthorized purchases or other unlawful business transactions, Omnia's competitive bid process approval will be subject to immediate revocation by the Department.

If the Department can be of further assistance, please let us know.

Sincerely,
