September 27, 2024

Legislative Committee on Public Accounts  
Alabama State House  
State of Alabama  
Montgomery, AL 36130

Dear Committee Members:

In accordance with your resolution of December 9, 1975, we submit our annual report of real property leased by the State of Alabama from private entities.

The annual cost to the state for leased space from private entities for leases in effect as of October 1, 2023, was \$57,842,316.79 as compared with \$52,069,914.72 for leases in effect as of October 1, 2022, an increase of 11.08%.

#### Source of Information

State agencies were requested to complete a questionnaire and furnish a copy of each lease for real property leased from private entities, provided that the lease was in effect as of October 1, 2023. The lease questionnaire supplied the name and address of the current lessor and the data for square footage when the square footage was not explicitly stated in the lease agreement. Information on each leased property presented in this report was obtained from the lease agreement and the lease questionnaire completed or provided by the agency.

#### Lease Agreements with Consideration other than Direct Payments

Some state agencies negotiated lease agreements for which consideration other than direct payments was provided. Most of these leases are for tower sites. The annual cost shown on the exhibits is \$0.00 or a nominal amount such as \$1.00. Other types of consideration provided to the lessors include maintenance of roads or driveways to the tower sites and installation and maintenance of a gate, an alarm system, and a power generator.

#### Statutory Limitation for Montgomery Leases

The *Code of Alabama 1975*, Sections 36-24-1 through 36-24-4 authorize the renting of office space in the City of Montgomery but limits the amount to be expended to \$40,000 per year. Although the \$40,000 statutory limitation was set in 1949, it remains a part of Alabama law. As shown on Exhibit IX, as of October 1, 2023, the total amount for leases in Montgomery strictly for office space rental was \$4,080,936.31 and the total amount of leases in Montgomery for combination office-storage space rental was \$3,478,155.74.

### Schedule of Leases Added / Not Renewed

Exhibit X is a summary, by state agency, of leases that appeared in the prior year report but not in this report and also of leases in this report but not in the prior year report. Exhibit XI (Schedule of Leases Added) and Exhibit XII (Schedule of Leases Not Renewed) are detailed listings of the leases summarized in Exhibit X.

### Standard Lease Form

The Department of Finance's Division of Leasing Management has standardized templates for new and renewal lease agreements. We recommend that this form be used by all state agencies. Use of non-standard forms resulted in insufficient information, such as:

- Some lease agreements were not dated.
- Some lease agreements were not signed by department/officials.
- Some leases did not bear the Governor's signature.
- Some leases did not specify the dimensions of the space leased.
- Some leases contained unclear provisions.

### Advertising

State agencies are not required by statute to advertise their needs for office space. However, such needs should be made known through public advertisement. This should provide the state with both a wider choice of available properties and more competitive prices.

We wish to thank the state agencies for providing us the necessary data to compile this report.

Respectfully submitted,

A handwritten signature in black ink that reads "Rachel Laurie Riddle". The signature is written in a cursive, flowing style.

Rachel Laurie Riddle  
Chief Examiner
