NORRIS GREEN
DIRECTOR

To the Legislature of Alabama:

This is the nineteenth edition of a publication that the Legislative Fiscal Office first completed in January of 1979. The book is intended as a reference source for the most basic information about Alabama's taxes and revenues.

This publication involved the entire staff of the Legislative Fiscal Office. Kirk Fulford directed the project and was responsible for writing the final edition. The research and data collection was accomplished by the staff analysts.

Legislative history information has been updated to include acts enacted through the 2012 Regular and First Special Session of the Legislature. Collection information has been updated to include fiscal year 2012 receipts. Comparison with other states information was last updated in November 2012.

The primary sources used in compiling this information were the Code of Alabama 1975, the Acts of Alabama, and the Commerce Clearing House's State Tax Guide. The data for revenue collections was obtained primarily from the Department of Revenue's Revenue Abstract reports and revenue reports issued by the Department of Finance.

Except where noted, all references to years concern fiscal years. The fiscal years of the neighboring states cited cover the period July 1 through June 30, while Alabama's fiscal year extends from October 1 through September 30.

We would appreciate your suggestions as to how we might make future editions of more value to you.

Sincerely,

Norris W. Green
Director

PART I

ABANDONED PROPERTY ACT

CONSTITUTIONAL PROVISION:

Section 258 of the Constitution of Alabama of 1901, as amended by Amendment No. 111, now appearing as Section 258 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Provided that the estates of deceased persons who die without leaving a will or heir shall be applied to the maintenance of the public schools. Amendment 111 (proposed by Act 56-82, 1st Ex. Sess. and proclaimed ratified September 7, 1956) replaced reference to "maintenance of the public schools" with "the furtherance of education."

STATUTORY AUTHORITY:

Sections 35-12-70 through 35-12-96 Code of Alabama 1975, as amended.

DESCRIPTION:

This revenue source is not a tax but a provision for the orderly disposition of unclaimed or abandoned property. Every person or entity holding funds or other property, tangible or intangible, presumed abandoned must file a report with and deliver the property to the state treasurer. This property includes, but is not limited to, monies kept on deposit in financial institutions, traveler's checks, money orders, safe deposit box contents, monies owed to policyholders by insurance companies, utility deposits, and corporate stocks, securities and dividends held by brokers and fiduciaries. The treasurer is required to attempt to notify the owners as well as publish notices of the unclaimed property in local newspapers within 120 days after the report and property have been received from the holder. All abandoned property (other than money and securities) delivered to the state treasurer is sold to the highest bidder at public sale within three years after its delivery (unless the treasurer determines that the probable cost of sale exceeds the value of the property).

COLLECTIONS:

All funds received, including the proceeds from the sale of abandoned property, are collected by the state treasurer.

MAJOR EXEMPTIONS:

- (1) Municipalities, incorporated municipal boards, counties, county boards and electric cooperatives are exempted from reporting property as abandoned.
- (2) Gift certificates, cards, or in-store credits issued by persons primarily engaged in a retail business.
- (3) Property held, due and owing in a foreign country and arising out of a foreign transaction.

DISTRIBUTION:

All funds received and proceeds from the sale of abandoned property are deposited as follows:

- (1) Funds from estates of persons who died without leaving a will or heir are deposited into the Public School Fund.
- (2) All other funds are deposited into the Unclaimed Property Reserve Fund. Claims and administrative expenses are paid from the Reserve Fund. Surpluses in the fund are deposited into the State General Fund on a quarterly schedule.

LEGISLATIVE HISTORY:

Acts 1971, No. 63, p. 101

Established the procedure for the uniform disposition of unclaimed or abandoned property; and established distribution as follows: 20% into trust fund for enforcement and claims; 80% to State General Fund.

Acts 1973, No. 1084, p. 1844

Provided for the uniform disposition of unclaimed money orders and traveler's checks which are outstanding for more than 15 years.

Acts 1991, 1st Ex. Sess., No. 788, p. 176

Accelerated state custody of unclaimed or abandoned tangible and intangible property by changing the dormancy period from seven to five years (provided one-time \$6 million windfall to State General Fund); and provided for current disposition of funds.

Acts 1996, No. 724, p. 1197

Transferred the administration of the Uniform Disposition of Unclaimed Property Act from the Department of Revenue to the State Treasurer's Office beginning October 1, 1996; amended reporting and delivery of property requirements; also established new funds within Treasurer's Office with reserves accruing to the State General Fund on a quarterly basis.

Acts 1999, No. 381, p. 607

Provided that any warrant drawn by the state comptroller which is outstanding and unpaid one year from the date of issue is void and shall be reported and maintained through the unclaimed property program (formerly void after one year with payment to the State General Fund).

Acts 2004, No. 440, p. 755

Repealed the prior unclaimed property law and provided for the Uniform Disposition of Unclaimed Property Act of 2004; shortened the time period within which holders of property must report and pay to the state property that is presumed to be abandoned; and clarified that property resulting from demutualization of an insurance company is subject to the unclaimed property law.

COMPARISON WITH NEIGHBORING STATES:

Florida

The law requires reports of abandoned property to be filed with the Department of Financial Services. Funds are deposited into the State School Trust Fund, where the funds are used for public education, until being claimed by the owners or owners' heirs.

Georgia

Procedures for disposition of abandoned property are carried out by the Department of Revenue. Unclaimed property reverts to the Unclaimed Property Trust Fund within the State General Fund.

Mississippi

Abandoned property is handled by the State Treasurer's Office. A portion is set aside in the Historic Properties Financing Fund with the remainder of the proceeds invested to generate interest income for the state.

Tennessee

The State Treasurer's Office administers the orderly disposition of abandoned property (Unclaimed Property Division). Proceeds are deposited into the State General Fund.

AD VALOREM TAX

CONSTITUTIONAL PROVISIONS:

1. Levying Provisions:

Section 214 of the Constitution of Alabama of 1901, now appearing as Section 214 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Limited total state property tax levied for state purposes to 6.5 mills.

Amendment No. 111 to Section 260 of the Constitution of Alabama of 1901, now appearing as Section 260 of the Official Recompilation of the Constitution of Alabama of 1901, as amended (proposed by Act 56-82, 1st Ex. Sess., proclaimed ratified September 7, 1956).

Section 260 provided a tax of 3 mills for the Public School Fund to be applied to the support and maintenance of public schools and restated the authority of the Legislature to levy a total state ad valorem tax up to 6.5 mills, including the 3 mills provided by this section for the Public School Fund (see LEGISLATIVE HISTORY-Acts 1935, No. 194). Amendment 111 replaced reference to the "public school fund" with "education fund" and reference to use of the 3-mill tax for the "support and maintenance of the public schools" with "support and furtherance of education."

2. Exemption Provisions:

Section 91 of the Constitution of Alabama of 1901, now appearing as Section 91 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Prohibited the Legislature from taxing the real or personal property of the state, counties or municipal corporations or cemeteries and certain property used exclusively for religious worship, schools or for purely charitable purposes. (See also Amendment No. 373).

3. Other Provisions:

Amendment No. 373 to the Constitution of Alabama of 1901, now appearing as Section 217 of the Official Recompilation of the Constitution of Alabama of 1901, as amended "Lid Bill" (proposed by Act 78-6, 2nd Ex. Sess., proclaimed ratified November 20, 1978, effective October 1, 1978).

- (a) Established the current classes of property, assessment ratios and the maximum total amount of ad valorem tax payable on any item in any one year (as a percentage of fair market value).
- (b) Provided option of current use value for Class III property.
- (c) Provided that taxable property be assessed uniformly by local governments at the state ratio effective October 1, 1978 and further provided for the adjustment of the ratios (within a prescribed range of assessment ratios of 5% to 35%) as applied to property taxes levied by local authorities.

- (d) Established procedures for increasing local millage rates above limits otherwise provided in the Constitution as follows:
 - (i) proposal by the local governing body after a public hearing;
 - (ii) approval by the Legislature;
 - (iii) approval by a majority of affected voters in a special election.
- (e) Provided that, on or after October 1, 1978, taxing authorities may levy and collect up to 2 mills property tax for reimbursement for certain reappraisal costs, with any collections above the reassessment costs in the year the tax terminates to be used for general purposes.
- (f) Restated exemption of property devoted exclusively to religious, educational or charitable purposes (see also Section 91) and provided additional exemptions. (See MAJOR EXEMPTIONS).

STATUTORY AUTHORITY:

Sections 38-4-12, 38-4-12.1, 38-4-13 and 40-3-1 through 40-11-4 Code of Alabama 1975, as amended.

TAX BASE:

A property tax is levied on the owners of real and personal property within Alabama. All property is assessed in one of four classes at the ratios and maximums below:

<u>Class</u>	<u>Description</u>	<u>Assessment Ratio</u>	<u>Annual Max. Payable (as % of Mkt Value)*</u>	<u>Total Millage Equivalent</u>
I	All property of utilities	30%	2.00%	66.7
II	All property not otherwise classified	20%	1.50%	75
III	All agricultural, residential, forest property, and historical buildings and sites	10%	1.00%	100
IV	All private passenger automobiles and motor trucks used for personal use	15%	1.25%	83.3

*Total (including state and all applicable local levies) payable per taxpayer per property. The cities of Mountain Brook, Vestavia Hills and Huntsville are exempted from the ceiling by Amendment No. 373 "Lid Bill." Other cities may be exempted by constitutional amendment. The fair and reasonable market value of the property (to which the appropriate assessment ratio is applied) is determined by the local tax assessor and local Board of Equalization except in the case of public utility property, where the Department of Revenue makes such determinations.

TAX RATE:

State levy of 6.5 mills per dollar of assessed value. (A mill is 1/1000 of a dollar or 1/10 of a cent, so that 6.5 mills equal \$.0065 or .65% of \$1. One mill equals \$1 of taxes per \$1,000 of assessed value of property.)

Example of application of State millage rate to determine state ad valorem taxes due: Assuming a home has an appraised value of \$100,000 and the homeowner (taxpayer) is eligible for the \$4,000 state homestead exemption. (See MAJOR EXEMPTIONS).

	\$100,000	(appraised value)
	x 10%	(assessment ratio of Class III property)
	\$ 10,000	(assessed value)
	-4,000	(homestead exemption)
	\$ 6,000	
	x .0065	(6.5 mills)
	\$ 39	(State ad valorem tax due)

Information regarding local levies follows LEGISLATIVE HISTORY.

COLLECTIONS:

By County Tax Collector or Revenue Commissioner; remitted to state treasury on the 5th and 20th of each month.

Fiscal Year	Collections (\$) (State only)*	Percent Change
2011-12	322,682,353	1.66
2010-11	317,428,029	.18
2009-10	316,868,628	1.27
2008-09	312,884,363	4.95
2007-08	298,127,360	10.07

*Does not include property tax relief replacement revenues from income tax receipts. Section 40-18-58 of the Code provides an appropriation from income tax receipts to the Property Tax Relief Fund (Section 40-9-24) to replace revenue losses which result from homestead exemptions. The transferred amount is distributed as are other state property tax receipts.

MAJOR EXEMPTIONS:

Section 91 of the Constitution of Alabama of 1901 exempts the real and personal property of the state, counties, or other municipal corporations, or cemeteries, as does Amendment No. 373. Amendment No. 373 also exempts property devoted exclusively to religious, educational or charitable purposes, as well as household and kitchen furniture, all farm tractors, all farming implements when used exclusively in connection with agricultural property and all stocks of goods, wares and merchandise (inventory). Sections 40-9-1 through 40-9-36 Code of Alabama 1975, as amended, provide a listing of additional property tax exemptions for various organizations and for various types of property. Among these are a \$4,000 (in assessed value) homestead exemption from state taxes for those 65 or under (up to 160 acres) and a total exemption from state ad valorem taxes on homesteads for those over 65 years of age or those who are, regardless of age, retired due to total and permanent disability or who are blind. Municipal industrial development projects, county industrial development projects and property and projects of Municipal Industrial Development Boards, Downtown Redevelopment Authorities, County Industrial Development Boards, County Industrial Development Authorities and Municipal Medical Clinic Boards may be exempt from certain ad valorem taxes as provided by Code of Alabama 1975, Sections 11-54-31, 11-20-12, 11-54-96, 11-54A-14, 11-20-47, 11-92A-18 and 11-58-14 respectively. Numerous other statutes exempt other authorities, facilities, commissions, corporations, districts and foundations from property taxes.

DISTRIBUTION:

3-mills to the Public School Fund; 2.5-mills to the State General Fund; and 1-mill distributed as follows: (1) \$20,773,500 to the Department of Human Resources for "old age pension purposes"; (2) one percent of the entire 1-mill levy to the Alabama Historical Commission for the maintenance of the Confederate Memorial Park in Chilton County; (3) the amount appropriated by the Legislature in the annual appropriations act to the Department of Revenue for administrative costs; (4) the amount required to the Department of Human Resources for pension payments to Confederate soldier and sailor widows; and (5) the remainder to the Alabama Veterans' Assistance Fund. County, municipal, and other special tax district levies are generally earmarked.

LEGISLATIVE HISTORY:

Acts 1935, No. 194, p. 256

Levied the 3-mill tax specified by Section 260 of the Constitution of Alabama of 1901, plus 1-mill for needy Confederate soldiers and sailors and their widows, and 2.5 mills for general state purposes; set the assessment ratio of taxable property at 60% of fair market value and specified certain exemptions.

Acts 1951, No. 703, p. 1211

Established the State Department of Public Welfare (now the State Department of Human Resources) and provided that the surplus or residue of the proceeds from the levy of the 1-mill tax for the relief of needy Confederate soldiers and sailors and their widows be used for old age assistance purposes exclusively before any part may be expended for any other purposes of the department of public welfare.

Acts 1967, No. 502, p. 1215

Changed assessment ratio to 30% of market value.

Acts 1971, 3rd Ex. Sess., No. 116, p. 4339, (Constitutional Amendment No. 325, now appearing as Section 217 of the Official Recompilation of the Constitution of Alabama of 1901, as amended)

- (1) Created three classes of taxable property with the following state assessment ratios:
 - Class I - all property of utilities - 30%
 - Class II - all property not otherwise classified - 25%
 - Class III - all agricultural, forest and residential property - 15%
- (2) Provided that taxable property be assessed by local governments according to the classes and assessment ratios above; further provided that the Legislature could vary the local governments' assessment ratio for each class of property or fix a uniform ratio for all property and that such ratios could vary among counties (within a prescribed range of 15% to 35%); also provided for local adjustment of tax rates.
- (3) Established maximum amount of total ad valorem tax payable on one property in any one year at 1.5% of fair market value.
- (4) Restated certain exemptions.

Acts 1971, 3rd Ex. Sess., No. 166, p. 4413

Restated and further defined property classes and assessment ratios, provided additional exemptions; and established differing assessment ratios for counties, as authorized by Act 71-116, 3rd Ex. Sess.

Acts 1973, No. 1216, p. 2062

Changed assessment ratios of several individual counties.

Civil Action No. 2877-N. (U.S. District Court for the Middle District of Alabama, Northern Division, March 8, 1974)

Required a statewide re-valuation of all real property in Alabama, fairly appraising each parcel of real estate at its current market value.

Civil Action 77-242-H. (U.S. District Court for the Southern District of Alabama, Northern Division, April 21, 1978)

Declared Section 40-8-1(e) Code of Alabama 1975, unconstitutional because the varying county assessment ratios provided therein created a disparity in rates among counties that was determined to be arbitrary and grossly unequal. However, the provision in Amendment No. 325 allowing the Legislature to vary assessment ratios among counties was upheld.

Acts 1975, No. 1187, p. 2319

Provided that 1% of the 1-mill ad valorem tax allocated for the relief of needy Confederate soldiers and sailors and their widows be remitted to the Alabama Historical Commission to provide for capital improvements and maintenance at the Confederate Memorial Park at Mountain Creek, Chilton County, Alabama.

Acts 1978, 2nd Ex. Sess., No. 46, p. 1724

Restated and further defined classes and assessment ratios as prescribed by Constitutional Amendment No. 373-Lid Bill.

Acts 1982, No. 302, p. 384

Provided a formula method for determining the current use value of agricultural and forest land.

Acts 1991, No. 694, p. 1340

Provided that a registration fee be paid in lieu of ad valorem taxes on manufactured homes which are rented or leased or located on land owned by someone other than the owner of the manufactured home. An owner-occupied manufactured home located on land owned by the occupant remained subject to ad valorem taxes.

Acts 1993, No. 309, p. 464

Allocated a portion of the proceeds from the 1-mill tax for veterans' homes in Bay Minette and Huntsville.

Acts 1997, No. 279, p. 499

Capped the amount that the Department of Human Resources receives from the 1-mill tax at \$20,773,500 annually, established the Alabama Veterans' Assistance Fund and allocated the residue from the 1-mill tax to the Alabama Veterans' Assistance Fund.

Acts 1999, No. 399, p. 663

Provided that property owned by customer-owned coin operated telephone companies and broadband personal communication services companies would be taxed as Class II property rather than as Class I property.

Acts 1999, 2nd Ex. Sess., No. 665 p. 131

Exempted shares of stock from ad valorem tax.

Acts 2000, No. 242, p. 386 (Constitutional Amendment No. 669, now appearing as Section 269.07 of the Official Recompilation of the Constitution of Alabama of 1901, as amended).

Removed the requirement that at least a 3-mill county school tax must be levied before a 3-mill district school tax may be levied under Amendment No. 3.

Acts 2005, 1st Ex. Sess., No. 215, p. 423 (Constitutional Amendment No. 778, now appearing as Section 269.08 of the Official Recompilation of the Constitution of Alabama of 1901, as amended).

Proposed a constitutional amendment to require 10 mills of ad valorem tax in each public school district (no longer “or equivalent”) beginning October 1, 2006.

Acts 2009, No. 551, p. 1593

Proposed an amendment to Section 269 of the Constitution of Alabama of 1901, as amended, to remove the supermajority vote requirement for the 1-mill countywide school tax to become effective. **(The proposed amendment was defeated at the 2010 General Election.)**

Acts 2011, No. 544, p. 996

Homeowners and Storm Victims Protection Act of 2011. Allows single-family dwellings and the fully-developed lot owned by a home builder to be classified as residential property for ad valorem taxes. This provision reduces the assessment percentage on such property from 20% to 10% of fair market value. The reclassification terminates when one of the following occurs: (1) the classification has been in place for 24 months; (2) the owner no longer holds a valid license; or (3) the sale, transfer, or other action resulting in the single-family dwelling or fully-developed lot no longer being held by the person seeking reclassification. Also allows an owner’s single-family dwelling destroyed or damaged to the extent that the dwelling is uninhabitable to retain its classification as residential property while the dwelling is being rebuilt or restored for a period not to exceed 24 months from the date of the destruction or damage.

Acts 2011, No. 710, p. 2192

Provides that residential property does not lose its classification as residential property for a period of 24 months if the property is not used as the owner’s single-family dwelling because the property is not inhabitable or is otherwise under repair after being damaged by a natural disaster. This allows the property to continue to be assessed at 10% of fair market value, rather than 20% of fair market value. Also, any homestead exemption will not be affected during any period the homestead is being repaired after being damaged by a natural disaster.

Acts 2012, No. 313, p.

Increases the income limit for persons over 65 years of age to qualify for a full homestead exemption (state and local) from \$7,500 to \$12,000 in net taxable income as shown on the person's and spouse's United States income tax return or other appropriate evidence. Reinstates an income limit for persons retired due to total and permanent disability to qualify for a full homestead exemption at \$12,000 in net taxable income as shown on the person's and spouse's United States income tax return or other appropriate evidence.

Interest on State Deposits

STATUTORY AUTHORITY:

Sections 41-14-1 through 41-14A-14 Code of Alabama 1975, as amended.

REVENUE SOURCE:

"Interest on State Deposits" is the income earned by the state treasurer through the investment of available cash. The treasurer must keep cash or demand deposits available as necessary to meet the daily operational needs of the state. Cash in excess of this amount may be invested in certain instruments authorized by law, including time deposits, money market mutual funds, certain government securities and repurchase agreements. At the end of FY 2011-12, the state maintained an invested balance of \$1.8 billion. State funds were held by designated state depository banks and collateralized in accordance with the Security for Alabama Funds Enhancement Act, or SAFE. Interest is earned on time deposit open accounts, interest demand deposits, repurchase agreements and U.S. Treasury and agency securities. Interest bearing bank demand deposits accounted for approximately \$7.2 million in interest during FY 2011-12. For that year, an average of approximately \$1.5 billion was invested in such accounts. In FY 2011-12, investment of state funds in U.S. Treasury and agency securities accounted for approximately \$8.4 million in investment income. For that year, an average of approximately \$533 million was invested in such instruments. Overall, the average percentage of available state funds invested and those producing earnings credit, together, was 99%.

COLLECTIONS:

Earned interest is received monthly by the treasurer from the respective banks.

COMPARISON WITH NEIGHBORING STATES:

Florida

The Department of Financial Services establishes policy guidelines regarding investment decisions. Authorized investments include U.S. Government and agency securities, repurchase agreements, asset-backed securities, including mortgage backed securities, certificates of deposit, commercial paper, bankers' acceptances, corporate obligations, convertible bonds, and mutual funds. Funds managed by the state and outside managers totaled \$15.5 billion as of June 30, 2009. For FY 2009, an average of approximately 99% of the treasurer's cash balance was invested. Funds were invested as follows: 7.01% in certificates of deposit and other cash equivalents; 37.65% in internal liquid, intermediate and bridge securities; and 55.34% in external investments.

Georgia

The Treasury operates a system of decentralized receipts and disbursements in that agencies maintain their own bank demand accounts. The Treasury serves as a repository for collected funds and attempts to maximize interest earned on idle balances until funds are disbursed to the various agencies. The Treasury maintains two investment custodial accounts – Georgia Fund 1 and the Georgia Extended Asset Pool. During FY 2010 an estimated 99.9% of the available cash was invested. As of June 30, 2010, Georgia Fund 1 was invested 45.89% in overnight repurchase agreements; 5.52% in term repurchase agreements; 1.17% in banker's acceptances; and 47.42% in U.S. Government and agency securities. As of June 30, 2010, the Georgia Extended Asset Pool was invested 87.31% in agency securities; and 12.69% in collateralized bank accounts.

Mississippi

Investment decisions are made by a State Investment Committee comprised of the state treasurer and the state fiscal officer. A cash flow model is used to analyze the amount of funds on deposit and available for investment. The Treasury utilizes depositories statewide, and pays state warrants from three banks in Jackson, one of which serves as the main clearing bank. The rate earned on time deposits is set at the bond equivalent yield for U.S. Treasury bills for comparable maturity dates. As of June 30, 2009, an average of 100% of available funds in the General Fund/Special Fund portfolio was invested as follows: 8.04% in certificates of deposit; .77% in demand deposits; 67.72% in U.S. government agency securities; 7.50% in equities and 15.97% in other authorized securities.

Tennessee

As of June 2010, the treasurer has over 80 depository accounts with banks, all of which are interest bearing accounts. The State Funding Board, consisting of the Governor, Secretary of State, Comptroller, Treasurer

and Commissioner of Finance and Administration approves the Investment Policy for the State Pooled Investment Fund. Investment decisions are delegated to the Treasurer, who vests day to day management in the Chief Investment Officer. As of June 30, 2010, 14.58% of available funds were invested in collateralized time deposits with in-state financial institutions; 13.11% in a bank sweep account; 57.25% in U.S. Government and agency securities; and 15.06% in commercial paper. The average yield on Tennessee's portfolio investments for 2009-10 was .40%. Available cash is 100% invested considering daily conversions of idle cash into the investment stream and the use of money market demand accounts. The weighted average maturity must be less than 90 days and no investment can have a maturity greater than 397 days.

Amendment No. 856 to the Constitution of Alabama of 1901, as amended (proposed by Act 12-490, proclaimed ratified October 9, 2012).

Provides for the transfer of \$145.8 million from the Alabama Trust Fund (ATF) to the State General Fund for the fiscal years 2013, 2014, and 2015 and revises the existing method for distributions from the Alabama Trust Fund beginning with the 2012-2013 fiscal year. Repealed the previous process of distributing annual interest earnings and capital gains in the ATF and replaced it with a process which bases annual distributions on the amount of royalties received in the previous fiscal year and the average market value of invested assets in the ATF as of the end of the three fiscal years prior to the beginning of the fiscal year for which distributions are being made.

Amendment No. 860 to the Constitution of Alabama of 1901, as amended (proposed by Act 11-315,
 proclaimed ratified

Reauthorized the Forever Wild Land Trust for a 20-year period ending in the fiscal year ending 2032.

REVENUE SOURCE:

The Alabama Trust Fund is a perpetual trust which was established in June 1985 with an initial trust capital of \$333,583,680 from cash bonus payments and royalties paid to the state from offshore oil and gas leases. The trust capital was augmented from time to time by the deposit of proceeds of any offshore oil and gas payment (including royalty payments) received after August 14, 1984. The lands division of the Department of Conservation and Natural Resources received 4% of the original lease payment of \$347,483,000 and receives 1% of any payments made subsequent to August 14, 1984. Prior to fiscal year 2013, the Alabama Trust Fund received 65% of the balance of the oil and gas lease payments received by the state. The remaining 35% of the balance is transferred to: (1) the County and Municipal Government Capital Improvement Trust Fund (7%); and (2) the Alabama Capital Improvement Trust Fund (28%). Beginning in fiscal year 2013, the Alabama Trust Fund will receive 32% of the balance of the oil and gas payments received by the state and 33% will be distributed pursuant to the annual spending plan. The remaining 35% will continue to be distributed as provided above. (See Amendment No. 856). As of September 30, 2012, the trust capital of the Alabama Trust Fund totaled \$2.9 billion.

- (2) The amount necessary to ensure that counties identified in (1) above receive from hazardous waste disposal fees annually the lesser of \$4.2 million or 100% of total hazardous waste disposal fees paid to

the state. In determining whether the county is entitled to receive all or a portion of the guaranteed minimum, there is charged against this amount all receipts received from the state fees and any other applicable local act.

Note: The above distributions to counties take priority over the distribution to ALERT described under TAX RATE.

In no event will the Department's allocation for this purpose be less than \$400,000 in any given year. Provided,

LEGISLATIVE HISTORY:

Acts 1988, No. 378, p. 557

Created the Alabama Underground Storage Tank Trust Fund, and provided for the tank fee to be credited to the Underground Storage Tank Trust Fund; and provided for third party claims and disbursements to be paid from the Fund.

Acts 1988, No. 537, p. 823

Provided for the regulatory program for underground storage tanks and a tank regulation fee to be used by the Department of Environmental Management.

Acts 1993, No. 628, p. 1062

Made the tank fee applicable to underground and aboveground storage tanks; authorized the assessment of an Underground and Aboveground Storage Tank Trust Fund charge and renamed the existing Trust Fund accordingly; and provided that this charge would be the primary funding mechanism for the Alabama Underground and Aboveground Storage Tank Trust Fund and included certain aboveground motor fuels storage tanks in the provisions of the statute.

Acts 1993, 1st Ex. Sess., No. 891, p. 165

Established the Underground and Aboveground Tank Trust Fund charge as a flat fee based on invoiced gallons ranging from \$1.50 to \$27. A portion of the Underground and Aboveground Storage Tank Trust Fund was appropriated retroactively for the fiscal year ending September 30, 1994 and each subsequent fiscal year to the Department of Environmental Management for administrative costs related to the provisions of this act.

Acts 2003, 2nd Ex. Sess., No. 483, p. 1486

Created the new nine member Underground and Aboveground Storage Tank Trust Fund Management Board to, among other things, annually recommend to the Environmental Management Commission a fuel fee based on invoiced gallons of not less than \$.003 per gallon nor more than \$.01 to replace the flat fee schedule; established the initial fuel fee of \$.005 per gallon beginning January 1, 2004; authorized the Legislature to make additional appropriations above statutory limits from the Fund to the Department of Environmental Management for administrative expenses not to exceed 5% of the total fees collected; and removed the previous \$10 million cap on tank fee charges, which allows the fees to be collected continuously.

Acts 2009, No. 589, p. 1734

Clarified that motor fuel blends (biodiesel and ethanol) are subject to the fuel fee and receive the same financial protection from the Fund as other motor fuels; increased the maximum fuel fee that may be charged from \$.01 per gallon to \$.02 per gallon, based on the annual recommendation from the Trust Fund Management Board, beginning October 1, 2009.

COMPARISON WITH NEIGHBORING STATES:

Florida

A tank registration fee of \$50 initially (with the exception of a replacement tank, which is \$25) and \$25 for annual renewal on underground tanks up to a 250,000 gallons capacity and \$1 thereafter for each additional 10,000 gallons. The maximum is \$1,000 per tank or \$2,500 per facility.

Georgia

In order to participate in the reimbursement benefits of the Underground Storage Tank Trust Fund, a potential claimant must pay an environmental assurance fee on petroleum products imported into the state of up to \$0.005 per gallon. No other fees or permits are required. The fee is only applicable to underground tanks.

Mississippi

Environmental protection fee to fund the Groundwater Protection Trust Fund of \$.004 per gallon and an annual facility fee of \$100 per tank.

Tennessee

Annual environmental assurance fee of \$250 for each compartment per tank.

On May 23, 2012, the Tennessee Underground Storage Tank (UST) Board voted to reduce the tank fee from \$250 per compartment per year to \$125 per compartment per year. Formal rulemaking of this change by the UST Board, public comment, and review by the Tennessee House and Senate is required before the charge is effective.

ESTATE TAX AND GENERATION-SKIPPING TRANSFER TAX

CONSTITUTIONAL PROVISIONS:

Article XI, Section 219 of the Constitution of Alabama of 1901, now appearing as Section 219 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Authorized the Legislature to levy a tax of not more than 2.5% of the value of all estates, real and personal, money and public and private securities passing from any person who may die to any other person except if the estate is for the use of the father, mother, husband, wife, brothers, sisters, children, or lineal descendants of the grantor.

Amendment No. 23 to the Constitution of Alabama of 1901, now appearing as Section 219 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Annulled the previous section of the Constitution relating to Estate Taxes and authorized the Legislature to provide for the assessment, levy and collection of a tax upon inheritances and for the levying of estate taxes not to exceed the amount to be credited against or deducted from any similar tax levied upon inheritances or estates levied by the U.S. Government. The state tax on inheritances and estates may be levied only so long as the federal tax is enforced and only to the extent of absorbing any credit allowed under the federal tax.

STATUTORY AUTHORITY:

Sections 40-15-1 through 40-15-19 and 40-15A-1 through 40-15A-14 Code of Alabama 1975, as amended.

TAX BASE:

Estate tax on all net estates passing by will, devise or under intestate laws of Alabama. Generation-skipping transfer tax on any real property of a transferor located in Alabama and any tangible or intangible personal property of a transferor located in the State of Alabama.

TAX RATE:

The estate tax and the generation-skipping transfer tax is an amount equal to the tax credit allowable under the federal estate tax and federal generation-skipping transfer tax laws. The tax on nonresident estates is imposed on the proportionate share of the net estate which Alabama property bears to the entire estate.

COLLECTIONS:

By the Department of Revenue within nine months after death. The amounts below represent Estate Tax collections. To date, no Generation-Skipping Tax has been received by the state.

STATUS OF THE ESTATE TAX:

The Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001, made major changes in the federal Estate Tax and the Generation-Skipping Transfer Tax. These tax changes were phased-in as follows:

Calendar Year	Estate/Generation-Skipping Transfer Tax Exemption	Highest Tax Rate
2002	\$1,000,000	50%
2003	\$1,000,000	49%
2004	\$1,500,000	48%
2005	\$1,500,000	47%
2006	\$2,000,000	46%
2007	\$2,000,000	45%
2008	\$2,000,000	45%
2009	\$3,500,000	45%
2010	taxes repealed	-

In calendar year 2011, because of the sunset provisions of the federal act, both taxes would have reverted to the exemption level of \$1,000,000 and to the level of 55% for the highest marginal rate. However, in December of 2010, Congress enacted the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act (TRUIRJCA) which temporarily set new and unified estate, gift, and generation skipping transfer tax exemptions and rates for federal tax purposes only. The new rate amount for 2011 was 35% and the exemption amount is set at \$5 million. For 2012, the rate remained the same but the exemption amount was indexed and increased to \$5.12 million. The American Taxpayer Relief Act permanently provided for a maximum federal estate tax rate of 40% effective January 1, 2013 and retained the exemption indexed for inflation (\$5.12 million in 2012). Under the previous federal law, Alabama estates were given a credit for estate taxes paid to the state. The amount of that credit was based on a graduated rate schedule. The 2001 tax relief act reduced this state tax credit as follows:

Calendar Year	Credit Reduction
2002	25%
2003	50%
2004	75%
2005	Repealed

Because Section 219 of the Official Recompilation of the Constitution of Alabama of 1901 allows for the collection of an estate tax in Alabama only as long as a credit may be absorbed under a federal tax, and due to the fact that

no state credit has been provided for in any federal estate tax legislation since December 31, 2004, no estate tax has been collected in Alabama on estates with a date of death after December 31, 2004. It is the opinion of the Alabama Department of Revenue that should a state credit be authorized in a future federal estate tax, Alabama would once again be able to levy a tax.

DISTRIBUTION:

After the cost of collection is deducted, all proceeds are deposited into the State General Fund. The entire proceeds of the generation-skipping transfer tax are to be deposited in the State General Fund.

LEGISLATIVE HISTORY:

Acts 1935, No. 194, p. 256

Established the inheritance tax.

Acts 1939, No. 593, p. 965

Addressed the issue of taxation of certain intangible personal property (such as money, credit or securities) held in a trust, so as to levy the tax on such property unless the property is subject to taxation in another state; the other state must also provide a reciprocal tax exemption for similar Alabama property.

Acts 1951, No. 939, p. 1606

Provided for cost of collection for the Department of Revenue.

Acts 1983, No. 740, p. 1208

Changed the due dates of estate taxes following the decedent's death from fifteen months to nine months; and altered the interest rate for delinquent payments (one-time windfall for General Fund).

Acts 1988, 1st Ex. Sess., No. 837, p. 307

Levied a "generation-skipping transfer" tax, allowing Alabama to collect an amount equal to the tax credit allowable on the federal generation-skipping tax collected in Alabama.

Acts 1992, No. 186, p. 349

The Taxpayers' Bill of Rights Act amended the provisions of this tax relating to interest charged on late payments, methods of commencing actions for recovery of charges, and by repealing sections of the Code so that the administration of this tax is in line with new provisions of the law relating to taxpayers rights.

Acts 2001, No. 468, p. 622

Allowed the executor of any estate to file an affidavit which shall be sufficient authority to carry on the business of the estate; and provided for a personal liability provision to apply to the personal representative for any tax later determined to be due.

Acts 2002, No. 516, p. 1330

Provided for removal of the requirement that the affidavit filed by the personal representative contain the value of the estate and the acknowledgment by the personal representative of the personal liability for any tax later determined to be due.

COMPARISON WITH NEIGHBORING STATES:**Florida**

The tax on estates was the amount by which the maximum allowable federal estate tax credit for state death taxes paid to the various states exceeded all estate and inheritance taxes paid to the states (other than Florida). Florida is one of the states tied to the federal tax law. Since the Florida estate tax was based solely on the federal credit, estates with a date of death that occurred after December 31, 2004 were not taxed. In addition, a generation-skipping transfer tax is imposed in an amount equal to the amount allowable as a credit for state legacy taxes under IRS rules to the extent that the credit exceeds the aggregate amount of all constitutionally valid taxes on the same transfer actually paid in states other than Florida. The tax was also nullified after December 31, 2004. A representative of the Florida Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Florida.

Georgia

Imposed an estate tax of an amount equal to the maximum credit allowable under the federal estate tax laws. Georgia is one of the states tied to the federal tax law. The estate tax does not apply to any estate with a date of death that occurred in a year for which the IRS does not allow a credit for state death taxes (after December 31, 2004). There is no generation-skipping tax in Georgia. A representative of the Georgia Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Georgia.

Mississippi

The estate tax was equal to the maximum amount of state death tax credit allowed by the federal estate tax laws. Mississippi is one of the states tied to the federal tax law. Since the Mississippi estate tax was based solely on the federal credit, estates with a date of death that occurred after December 31, 2004 were not taxed. There is no generation-skipping tax in Mississippi. A representative of the Mississippi Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Mississippi.

Tennessee

Imposed an inheritance tax of 5.5% up to 9.5% depending on the value of the net taxable estate. Estates over \$440,000 pay \$30,200 plus 9.5% of the excess over \$440,000. A full exemption is allowed to spouses and an exemption equal to \$1,000,000 is allowed to all other beneficiaries. Beginning in 2013, the exemption amount

increases to \$1,250,000. This amount increases annually until 2015 when it is set at \$5,000,000. The inheritance tax will not be levied beginning in 2016. Beginning January 1, 2012 the Tennessee gift tax was repealed. A Generation-Skipping Tax is imposed similar to the Alabama tax. Tennessee is one of the states with an inheritance tax independent of the federal estate tax. An estate tax is also levied and is meant to pick up the difference between the state inheritance tax and the maximum credit allowed by federal law. Because of the lack of a federal credit the state inheritance tax, discussed above, is the sole tax levied on estates.

EXEMPTIONS AND CREDITS:

Moneyed capital employed in the business and the shares of all financial institutions are exempted from ad valorem taxation. Financial institutions are allowed dollar-for-dollar credits against their excise tax liabilities for amounts paid in other taxes levied, including but not limited to sales and use taxes, utility taxes, and portions of certain local license taxes.

DISTRIBUTION:

After the cost of collection is deducted by the Department of Revenue, the amount of revenue generated by the additional .5% tax rate added by Acts 1999, 2nd Ex. Sess., No. 664, is distributed to the State General Fund. The remaining proceeds are distributed as follows: 25% to the State General Fund; 25% to the

counties in which institutions are located; and 50% to the cities in which the institutions are located.
Revenue from taxpayers with no physical presence in the state is distributed to the State General Fund.

LEGISLATIVE HISTORY:

Acts 1935, No. 194, p. 256

Established financial institution excise tax at 6%.

Acts 1965, No. 276, p. 390

Provided that production credit associations were to be subject to the excise tax.

Acts 1978, No. 840, p. 1247

Provided that bank holding companies were to be recognized as financial institutions for excise tax purposes and were therefore exempted from state income taxation.

Acts 1991, No. 478, p. 866

Permitted incorporated municipalities to levy license taxes, but not in excess of those authorized by Section 11-51-130, Code of Alabama 1975. This tax may be credited against the tax levied by Section 40-16-4.

Acts 1993, 1st Ex. Sess., No. 852, p. 95

Expanded deductions from gross income to include the amount of aid or assistance provided to the State Industrial Development Authority.

Acts 1999, 2nd Ex. Sess., No. 664, p. 124

Increased the tax rate to 6.5% for all tax years beginning after December 31, 2000; and provided that all revenue generated from the increased tax rate be deposited to the State General Fund. The rate increase was contingent upon the ratification of the constitutional amendment proposed by Act 99-600. The amendment was ratified as Amendment No. 662 on June 19, 2000.

Acts 1999, 2nd Ex. Sess., No. 665, p. 131

Directed the Department of Revenue to adopt regulations to prescribe the method of allocating and apportioning net income of financial institutions that do business in more than one state; provided that businesses issuing credit cards to Alabama residents are subject to the tax; and provided that all revenue generated from taxpayers with no physical presence of the state is to be distributed to the State General Fund.

Acts 2006, No. 114, p. 173

Conformed Alabama tax law to federal law regarding the taxation of trusts and estates. Known as "Subchapter J and Business Trust Conformity Act."

COMPARISON WITH NEIGHBORING STATES:

Florida

5.5% of federal taxable income apportioned to Florida with adjustments (under corporate income tax).

There is also a Florida alternative minimum tax requirement.

Georgia

COMPARISON WITH NEIGHBORING STATES:

Florida

Department of Revenue determines the assessed value of the average number of cars in Florida and certifies the same to the local taxing jurisdiction based on the number of track miles in the jurisdiction. The local taxing jurisdiction then applies the appropriate millage and bills the railroad and private car lines.

Georgia

Railroad equipment company cars are taxed at the regular rate imposed upon property in the state on a valuation based on the proportion of the entire value of the cars that the car-wheel mileage made in Georgia to the entire car-wheel mileage of cars in the country. Additionally, cars are taxed at the regular rate imposed upon property in each local taxing jurisdiction on a valuation based on the proportion of the entire value of the cars that the track mileage in the local taxing jurisdiction to the entire track mileage of the state.

Mississippi

No comparable tax based on number of cars.

Tennessee

No comparable tax based on number of cars. The Tennessee Comptroller of the Treasury assesses railroads' equipment and property at 40% of value for real property and 30% for personal property. The local taxing jurisdiction then applies the appropriate tax rate.

GASOLINE TAX (AND GASOLINE PORTION OF THE MOTOR CARRIER FUEL TAX)

CONSTITUTIONAL PROVISIONS:

Amendment No. 93 to the Constitution of Alabama of 1901, as amended by Amendment No. 354, now appearing as Section 111.06 of the Official Recompilation of the Constitution of Alabama of 1901, as amended.

Amendment No. 354 (proclaimed ratified November 10, 1976) expanded upon Amendment No. 93 to allow for the distribution of proceeds from charges for personalized license plates or tags in any manner prescribed by the Legislature.

NOTE: The above restriction does not apply to fees and taxes levied by counties and municipalities pursuant to authority granted by the state.

***The following provisions were enacted in 2011 by Acts 2011, No. 565, effective October 1, 2012. For previous provisions, see the 2012 Tax Guide on our website (www.lfo.state.al.us).**

STATUTORY AUTHORITY:

Sections 40-17-320 through 40-17-363 (Gasoline Tax); and Sections 40-17-140 through 40-17-155 (Motor Carrier Fuel Tax) Code of Alabama 1975, as amended.

TAX BASE:

Excise tax on the removal, import, sale/transfer in the bulk transfer/terminal system and blending of motor fuel (Gasoline Tax). Excise tax upon motor carriers who operate or cause to be operated motor vehicles on any highway in Alabama (Motor Carrier Fuel Tax).

TAX RATE:

The State of Alabama collects three levies, of \$.07, \$.05 and \$.04, for a total of \$.16 per gallon. (See also AGRICULTURAL FEES-Petroleum Commodities Inspection.) Excise tax on motor carrier fuel is at the same rate as in effect for gasoline.

NOTE REGARDING LOCAL RATES:

Counties may levy a county gasoline tax if the legislature has passed a local act authorizing the county commission to do so. The local act usually sets the parameters of the tax and specifies use of the funds. The local act may provide for a credit of municipal gas taxes paid within that county against the county tax owed or may exempt payment of a portion of the county tax in municipalities which levy a gasoline tax.

Municipalities may levy a municipal gasoline tax by city ordinance. One-half of the amount levied in the municipality may be levied in the police jurisdiction. The ability of municipalities to levy a city gasoline tax may be limited by a legislative act which levies a county gasoline tax - i.e., cities within the county may be prohibited from levying a municipal gasoline tax, but be given a share of the county tax.

COLLECTIONS:

INSURANCE COMPANY LICENSES AND PREMIUM TAX

STATUTORY AUTHORITY:

Sections 27-2-39, 27-3-29, 27-4-2 through 27-4-11, 27-4A-1 through 27-4A-7, 27-8A-9, 27-10-31, 27-10-34, 27-10-35, 27-21-4, 27-21A-28, 27-31A-10, 27-34-42, 27-52-3, 27-52-6, 10-4-115, 40-14B-12 through 40-14B-22 and 40-26B-20 Code of Alabama 1975, as amended.

TAX BASE:

A premium tax is imposed on the amount of premiums written by an insurer. A license tax is levied for the privilege of providing insurance within the state. Insurers paying the premium tax are exempt from state income tax but are subject to the Alabama business privilege tax (although they may deduct up to 60% of the privilege tax paid from the premium tax payable and the privilege tax for any taxpayer is capped at \$3 million annually).

TAX RATE:

(1) Premium Tax:

- (a) Property and casualty insurers: 3.6% of premiums from business done in this state except: (1) property and multi-peril insurance written in fire protection classes 9 and 10 and mobile homes, mobile homeowners, homeowners and low value dwelling policies in a face amount of \$40,000 or less are taxed at the rate of 1%; (2) medical liability insurers are taxed at the rate of 1.6%; and (3) the above 3.6% rate is reduced by the following for economic development activities pursued in Alabama:

(i) Insurance Offices Facilities Credit

For each office in Alabama used for insurance operations a credit of up to .01%; total credit not to exceed 1%.

<u>Number of Full Time Employees in Office</u>	<u>Credit as a % of Premiums Taxable</u>
1-3	0.0025%
4-10	0.0050%
11-50	0.0075%
51 or more	0.0100%

(ii) Real Property Investment Credit

For each \$1 million of real property investments in Alabama a credit of .1%, up to 1% total credit. (See 27-4A-3(a)(3)d.2.(i)-(v.) for methods used to determine real property investments.)

For an insurer having affiliates, all premiums of the insurer and its insurance company affiliates subject to tax at the 3.6% rate may be aggregated; all Alabama insurance office facilities and

real property investments may be aggregated; and the total allowable tax credits may be determined as if all the aggregated premiums, office facilities and real property investments were owned by one insurer. Allowable credits thus determined may be allocated by the insurer among the insurer and its insurance company affiliates. Economic development credits allowed to foreign insurers are treated as Alabama premium taxes paid by the insurers for purposes of calculating any retaliatory tax due.

- (b) Life insurers: 2.3% except: (1) individual life insurance policies in a face amount of greater than \$5,000 and up to and including \$25,000, excluding group life insurance policies, are taxed at the rate of 1%; (2) individual life insurance policies in a face amount of \$5,000 or less, excluding group life insurance policies, are taxed at the rate of .5%; and (3) annuity considerations are not taxed.
- (c) Health insurers and accident and health insurance for which a separate premium is charged: 1.6% except: (1) premiums for hospital, medical, surgical or other health care benefits provided pursuant to any employer sponsored plan for groups with less than 50 insured participants are taxed at the rate of .5%; and (2) premiums for insurance benefits supplementary to Medicare and Medicaid are not taxed. Health maintenance organizations are subject to the premium tax paid by health insurers on health insurance.
- (d) Surplus line brokers: 6% on direct premiums, less return premiums and sums collected to cover state or federal taxes, on surplus line insurance transacted during the preceding calendar year, computed only on the proportion of premiums allocable to risks or exposures located in Alabama.

- (f) Captive Insurers: tax on insurance premiums collected: .04% on the first \$20 million; .03% on the next \$20 million and .0075% on each dollar thereafter. Tax on certain assumed reinsurance premiums collected: .225% on the first \$20 million; .150% on the next \$20 million; .050% on the next \$20 million; and .025% on each dollar thereafter. The minimum total premium tax paid by captive insurers will be \$5,000 annually.
- (g) Premium taxes on premiums paid by a purchasing group, as defined in Section 27-31A-2(10), are at the same rate as that on premiums paid for similar coverage from a similar insurance source by other insureds.
- (h) The calculated premium tax for all insurers is subject to credit and deduction of the full amount, with 25% of the full amount allowed at each quarterly premium tax due date, for all of the following:

 - (v) All expenses of examination of the insurer by the commissioner;
 - (vi) 60% of all franchise or business privilege taxes paid by the insurer to the state; and

 - (j) Pursuant to Section 27-21-4 any losses suffered as a result of operation under the Alabama Health Care Plan (in the event such a plan is implemented) may be deducted from premium taxes payable but total loss deduction may not exceed 50% of the tax normally payable.
 - (k) Pursuant to Section 27-3-29 foreign insurers are subject to retaliatory taxation if home state rates applied to foreign insurers are higher than Alabama's.
 - (l) Pursuant to Sections 40-14B-12 through 40-14B-20 insurers who invest in certified capital companies, as defined in Section 40-14B-1(4) may deduct from premium taxes payable the amount of the investment, beginning in Calendar Year 2004. Alabama Municipal Insurance Corporation, et. al. v. State of Alabama 730 So. 2d 107 (1998)

In March 1995 eight domestic property and casualty companies filed suit in Montgomery County Circuit Court challenging the constitutionality of the Insurance Premium Tax Reform Act of 1993 (see Acts 1993, No. 679 above). This suit alleged that the economic development credits which allow property and casualty insurers to reduce their tax rate by an amount dependent upon (1) the number of offices in the state and the persons employed within each of those offices and (2) the value of real property investments made in the state discriminates in favor of large companies and is, therefore, unconstitutional. In June, 1997 the Circuit Court ruled for the plaintiffs on the basis that the challenged tax credits violate the equal protection provisions of the Alabama Constitution, and declared the premium tax as it applied to all property and casualty companies void. However, on May 22, 1998 the Alabama Supreme Court reversed the Circuit Court judgment and remanded the case to the trial court for further proceedings or an order consistent with the Supreme Court opinion. The Alabama Supreme Court denied a rehearing on February 19, 1999. On October 4, 1999 the U.S. Supreme Court denied the taxpayers' petition for a writ of certiorari and let stand the ruling of the Alabama Supreme Court.

Acts 1999, 2nd Ex. Sess., No. 665, p. 131

Reduced the credit for franchise or privilege taxes paid to the state from 100% of the amount paid to 60% of the amount paid, effective for all taxable years beginning after December 31, 1999.

Acts 2001, No. 702, p. 1509

Established the current company and producer (formerly agent/broker) licensing fee structure (Section 27-4-2) and the current continuing education fee structure (Section 27-8A-9); and provided that producer and service representative annual license renewal fees, continuing education compliance form late filing fees, continuing education course provider initial and annual renewal fees, and continuing education course approval filing fees be deposited to the Insurance Department Fund, rather than to the Insurance Agents and Brokers Continuing Education Fund (which was eliminated by this act).

Acts 2002, No. 429, p. 1108

Provided a credit against the insurance premium tax for investments by insurance companies in certified capital companies, as defined in Section 40-14B-1(4) Code of Alabama 1975. The credits against the premium tax cannot begin until Calendar Year 2004 and cannot exceed \$12.5 million per year or \$100 million in total for the life of the program.

Expanded the definition of Service Representative to include persons employed at an hourly rate by insurance producers.

The credits issued cannot exceed \$100 million for all years in which the premium tax credits are allowed. Additionally, the amount of credits issued may not exceed 5% of the certified investor's vested premium tax credit for any tax year until 2014, at which time 17.5% of the vested credit may be taken.

NOTE REGARDING LOCAL RATES:

Counties may not impose premium, license or privilege taxes on insurance companies (Section 27-4A-5). Municipalities may impose a tax on fire and marine insurance companies not to exceed 4% per \$100 of the gross premiums, less return premiums, on policies on property located in the municipality (Section 11-51-120).

COMPARISON WITH NEIGHBORING STATES:

Florida

Gross premium (less reinsurance and return premiums or assessments) tax on foreign insurers at the following rates: 1% for annuities (with certain exceptions); 0.75% of gross underwriting profit for wet marine and transportation insurers; 1.6% for the multiple-employer welfare arrangement, the commercial self-insurance fund, professional liability risk management trust fund, and medical malpractice self-insurance fund; and 1.75% for all others (property and casualty, life and health, including Blue Cross/Blue Shield). Domestic insurers maintaining their home office in Florida are exempt. Insurers are also subject to the Florida corporate income tax. Every insurer authorized to transact insurance for commercial property in Florida must collect, in addition to the applicable premium charge, an annual surcharge from each holder of a policy for fire, allied lines, or multi-peril insurance. The surcharge is imposed at a rate of 0.1% on the gross direct premium written on commercial property located in Florida. The insurer remits the surcharge to the Department of Revenue. There is also a \$2 per policy annual surcharge on homeowner's, mobile homeowner's, tenant homeowner's, and condominium unit owner's policies and a \$4 annual surcharge on commercial fire, commercial multi-peril, and business owner's property insurance

policies. The State Department of Insurance also collects a fire marshal's assessment of 1% of gross premiums from fire insurance on property in Florida and a surplus lines tax of 5%. Insurers are allowed a credit against the premium tax for intangibles taxes, corporate income taxes and emergency excise taxes paid, and a credit equal to 15% of the salaries (excluding commissions) paid to non-licensed employees within Florida. The total credit, exclusive of intangibles taxes, may not exceed 65% of the premium tax liability. Insurers are allowed credit against tax due for 100% eligible contribution to an eligible nonprofit scholarship funding organization. Through June 30, 2015, a credit is allowed for 50% of community contributions for projects in enterprise zones undertaken by an eligible sponsor that is designed to construct, improve or substantially rehabilitate housing or commercial, industrial or public resources and facilities or to improve entrepreneurial and job-development opportunities for low-income persons. No insurer can receive more than \$200,000 in annual credits for all approved community contributions made in any one year. Unused credit may be carried forward for up to five years. The total amount of tax credits allowable is \$12 million. Florida also allows certified capital company investment credits. Foreign companies, other than those with a regional home office in Florida, are subject to retaliatory provisions.

Georgia

A gross premium tax (less return premiums) of 2.25% on domestic and foreign insurers (including Blue Cross/Blue Shield and annuity considerations); surplus line brokers and independently procured coverage pay 4%. However, if 25% of a firm's qualifying total assets are invested in bonds of the state or its municipal governing bodies, Georgia property, or loans secured by liens on such property, the premium tax is 1.25% and, if the amounts so invested equal 75% of total qualifying assets, the tax rate is .5%. There is an additional county tax of 1% on life policies on residents of county unincorporated areas and up to 2.5% on other lines for counties and municipalities (with the 1% life deductible from state premium tax due). Georgia allows credits for investment in a certified capital company, effective March 1, 2003. Foreign companies are subject to retaliatory taxes. Captive insurers are taxed in the same manner as other domestic insurance companies.

Mississippi

The tax for domestic and foreign companies is 3% of gross premiums, less premiums received for reinsurance, return premiums, cash dividends and cancellations. Surplus lines are taxed at 4%. There is no tax on annuities. Mississippi has a voluntary basic health insurance coverage program designed to provide health insurance coverage to persons under age 65 who are accepted by an approved carrier and who have been without private health insurance coverage for at least one year or whose family income

does not exceed 150% of the federal poverty level. Contracts of such insurance coverage offered by approved carriers are exempt from the insurance premiums tax on domestic and foreign insurance companies. A fire marshal tax of 1% is levied based on property insured in Mississippi. The gross premium tax on foreign and domestic companies is reduced by the net percentage of total assets invested in Mississippi up to a maximum of 50%. Foreign companies are subject to retaliatory taxes.

Tennessee

All applications for admission have a \$675 fee; new certificate of authority, \$440. Gross premium tax on all foreign and domestic property and casualty insurance companies is 2.5% (\$150 minimum) general rate plus an additional tax of .75% on fire insurance companies on that portion of the premium applicable to the fire risk (but property and casualty rates may be reduced by up to 75% based on percentage of total assets invested in Tennessee); annuity, pension, or profit-sharing plans exempt from federal income tax, or qualifying for certain income tax advantages, pay no tax (nonqualified annuities pay at the life insurance rate). Domestic and foreign life and health insurance companies, including Blue Cross/Blue Shield, pay 1.75% (\$150 minimum) of gross premiums; captive insurance company direct premiums are taxed at 0.4% of the first \$20 million and 0.3% for each dollar thereafter. Also captive insurance companies are taxed on assumed reinsurance at 0.225% of the first \$20 million, 0.15% of the next \$20 million, 0.050% of the next \$20 million, 0.025% for premium above \$60 million. Minimum of \$5,000 to maximum of \$100,000 aggregate tax; and title insurance companies are taxed at 2.5%. Health maintenance organizations, including limited health service organizations, are taxed at 5% of gross dollar amount collected. Foreign companies are subject to retaliatory taxes. Surplus lines are taxed at 5%.

Criminal History Processing Fee – Section 12-19-180, Code of Alabama 1975, amended by Act 97-945, effective December 1, 1997, provides for an additional \$30 fee on all DUI and non-traffic cases to be distributed as follows:
\$10 for Public Safety Automated Fingerprint Identification System Fund
\$ 5 for Court Automation Fund
\$10 for Criminal Justice Information System Automation Fund
\$ 5 for Department of Forensic Sciences Services Fund

- * The amount to the municipality is determined by Section 12-19-154, which provides that the municipalities shall receive 10% of the docket fee in municipal ordinance cases in district and in circuit court and that the municipal share would come from that part of the docket fee allocated to the county general fund. In 1987, Act 87-405 was enacted and mandated a new section 12-19-155, which prohibits the increase in docket fees from resulting in an increase in the municipal share of the docket fee. Thus, the municipal 10% share is based on the \$87 docket fee.
- ** Act 83-744, Act 87-405, Act 92-227 and Act 94-804 prohibit an increase in the municipal share of docket fees collected in municipal ordinance cases in circuit court thus resulting in a smaller share of the overall docket fee being distributed to the municipalities.
- *** If preliminary hearing was requested in district court, also collect and disburse fee in circuit court.

------	--	---------------------

- 1 The amount of \$17 for the General Fund of the municipality assumes that the municipality has, by ordinance, adopted the maximum amount of \$10 pursuant to Section 12-14-14. If a municipality's ordinance sets a cost of less than \$10 for the municipal general fund, the \$17 local cost should be reduced to the total of the amount set by ordinance plus \$5.
- 2 Section 12-19-251.1 provides that these funds may be retained in the General Fund of the municipality to defray the cost of providing representation for indigent defendants in municipal court. Any excess over such costs is remitted to the treasury of the State of Alabama to the credit of the Fair Trial Tax Fund.
- 3 The fee is distributed to the Alabama DNA Database Fund (currently \$11) and the Citizenship Trust (currently \$1) as specified in Act 2009-768, with one-half of the receipts distributed to the Trust being allocated to the David Mathews Center for Civic Life.
- 4 Pursuant to Act 2010-438, the Solicitor's Fee is distributed as follows: (1) \$3 of the fee imposed will be retained by the clerk of the circuit court and used for operation of the clerk's office; and (2) the remainder

will be deposited into the Solicitor's Fund or District Attorney's Fund in the county where the case is heard or to the fund that may be hereafter prescribed by law for the solicitor's fee. This act does not supersede local laws enacted on or after the effective date of this act. Upon repeal of a local act establishing a solicitor's fee, the county shall collect the fee pursuant to this act.

⁵ Section 11-47-7.1 authorizes any municipal governing body, by majority vote, to levy and assess additional court costs and fees up to an amount not to exceed court costs and fees in the district court of the county for a similar case. These funds must be paid into a special municipal fund, known as the "Corrections Fund," and used exclusively for the purchase of land for, and the construction, equipment, operation, and maintenance of a municipal jail, other correctional facility, if any, court complex or any juvenile detention center.

⁶ Act 2012-535, effective June 21, 2012, increased municipal court costs as follows:

For Non-Traffic Misdemeanor/Municipal Ordinance cases, assessed an additional \$40 court cost and distribute as follows: \$10 to the "Municipal Court Judicial Administration Fund"; \$20 to the "State Judicial Administration Fund"; \$5 to the "Presiding Circuit Judge's Judicial Administration Fund"; and \$5 to the "Circuit Clerk's Judicial Administration Fund."

For Traffic cases (excluding "parking", "seat belt" and "open container"), assessed an additional \$26 and distribute as follows: \$2 to the "Alabama Peace Officer's Annuity and Benefit Fund"; \$10 to the "Municipal Court Judicial Administration Fund"; \$9.34 to the "State Judicial Administration Fund"; \$2.33 to the "Presiding Circuit Judge's Judicial Administration Fund"; and \$2.33 to the "Circuit Clerk's Judicial Administration Fund."

⁷ Act 2012-535, effective June 21, 2012, created the 'Bail Bond Filing Fee' as follows: \$35 on each executed bond (applies to all misdemeanor cases and 'Serious Traffic Offenses' in Title 32-5A (DUI, BUI, Reckless Driving)) distributed as follows: \$3.50 to the "Municipal General Fund"; \$15.75 to the "Municipal Court Judicial Administration Fund"; \$15.75 to the "Solicitor's Fund" in the county. Where multiple charges arise out of the same incident, the filing fee shall be assessed only on one charge. In addition to the \$35 "Bail Bond Filing Fee", a new "Bail Bond Fee" of 3.5% of the total face value of the bail bond or \$100, whichever is greater, but not to exceed \$450 is assessed at adjudication. This new fee applies to all misdemeanor cases and "Serious Traffic Offenses" in Title 32-5A (DUI, BUI, Reckless Driving). NOTE that since \$1,000 is the maximum bail range for Municipal Courts pursuant to the Bail Schedule provided in Rule 7.2 of the Alabama Rules of Criminal Procedure, \$100 will almost always be the amount of the "Bail Bond Fee" since 3.5% of \$1,000 is only \$35. **EXCEPT:** where a person is

released on a recognizance or signature bond, including uniform non-traffic cases cited pursuant to Rule 20, Alabama Rules of Judicial Administration (ARJA), the “Bail Bond Fee” will be \$25.

Pursuant to Section 12-19-152, fines collected in misdemeanor and felony cases in district and circuit courts are remitted to the State General Fund unless otherwise provided. (See Sections 33-5-32, 33-5-51(h), 33-5-61, 33-5-62 and 33-5-66(e) for disposition of fines for violation of provisions regarding the registration and operation of vessels; Section 9-11-6 for disposition of fines for violation of provisions of game and fish laws; Section 9-13-65 for disposition of fines for violation of certain laws regarding forest and forest products; Section 32-5A-191 for disposition of fines for DUI; Section 32-5A-191.3(g) for disposition of fines for operation of a vessel while DUI; Section 32-6-233.1 for disposition of fines for unauthorized use of a handicapped parking place.) Pursuant to Section 12-19-154, fines and forfeitures collected in municipal ordinance cases in district and circuit courts are remitted 90% to the municipality and 10% to the State General Fund, except fines collected for violation of Section 32-5A-191 (DUI) pursuant to a municipal ordinance are remitted as provided in Section 32-5A-191(m). Section 11-45-9 limits fines in municipal courts to \$500.

COMPARISON WITH NEIGHBORING STATES:

Florida

Court costs are deposited into the General Revenue Fund, the State Courts Revenue Trust Fund, the Clerks of the Court Trust Fund, the Administrative Trust Fund, and the Court Education Trust Fund. Additionally, on the local level, the counties retain a portion of the court costs they receive. State courts are funded through

appropriations on the state level, while other courts are funded partially through the state and partially through the counties.

Georgia

Georgia's judicial system is not a unified system. The state appropriates funds to operate the appellate courts and provides a portion of the funds required to operate the general jurisdiction trial courts (Superior Courts) and juvenile courts. Limited jurisdiction courts are funded entirely by city or county governments.

Mississippi

Court costs are collected by the lower courts are forwarded to the Clerk of the Supreme Court on the state level. These costs are deposited into the State General Fund and into the Judicial System Operation Fund, which is used for the operation of the judicial system (subject to appropriation by the Legislature). At the local level, the clerk retains a majority of the court costs, although in some cases a portion goes to the Judicial System Operation Fund.

Tennessee

Appellate court clerks collect court fees which are deposited into the state treasury and designated for the operation of the state court system. The fines and fees from the lower courts accrue to the state and the counties depending on the nature of the case. The general rule, with exceptions, is that fines collected in felony cases go to the state, while fines collected from misdemeanor cases go to the counties. Litigation taxes may also apply.

- (2) Facilities providing care to physically or mentally disabled persons who are 18 years of age or less.

DISTRIBUTION:

After deducting the costs of collection, taxes on prescriptions, nursing facilities and hospitals are credited to the Alabama Health Care Trust Fund and used only by the Alabama Medicaid Agency for matching federal funds available under Title XIX of the Social Security Act (Medicaid) for the Medicaid Program in Alabama. Act 00-772 created the Medicaid Trust Fund, effective October 1, 2000, into which any funds appropriated to the Alabama Medicaid Agency from any source which, at the end of any fiscal year, have not been expended or encumbered may be transferred upon approval of the Director of Finance and the Governor.

LEGISLATIVE HISTORY:**Acts 1987, No. 707, p. 1245**

Created the Alabama Mothers and Babies Indigent Care Trust Fund and the Alabama Mothers and Babies Indigent Care Trust Board to administer the fund; and provided that funds from the trust are to be transferred to the Alabama Medicaid Agency to implement the Medicaid program in Alabama. The source of funds to the trust include appropriations, grants, contributions, and donations and transfers from the two state teaching hospitals.

Acts 1991, No. 124, p. 148

Provided for a privilege tax of \$.10 per prescription with a retail price of \$3 or more on all providers of pharmaceutical services and provided for the distribution of such funds to the Alabama Health Care Trust Fund to be used for indigent health care and operation and maintenance expenses of the Alabama Medicaid Agency. (See NOTE following Act 91-127).

Acts 1991, No. 125, p. 152

Created the Alabama Health Care Trust Fund as a revolving fund into which Medicaid Provider Taxes are to be deposited. (See NOTE following Act 91-127).

Imposed an annual privilege tax of \$999.96 per bed on nursing facilities which have an agreement to participate in the Alabama Medicaid Program. (See NOTE following Act 91-127).

Acts 1991, No. 127, p. 158

Defined a disproportionate share hospital and levied a privilege tax on them at the rate of 65% of their Medicaid occupancy, with the annual tax due to be determined by the Alabama Medicaid Agency; and provided for the Medicaid Agency to develop methodology for reimbursement to disproportionate share hospitals. The act had a "hold harmless provision" (subsequently disallowed by the federal government and

eliminated in Act 92-440) providing a reserve from which hospitals were to be assured a disproportionate share reimbursement not less than the taxes paid each fiscal year.

NOTE:

Pursuant to PL 102-234, the provider specific taxes levied in 1991 and described above were disallowed by the federal Health Care Financing Administration as an approved method of financing the state share of financial participation in the Medicaid program. Broad-based taxes (a uniform tax on those in the same provider class) were given federal approval and were subsequently enacted in the 1992 Regular Session.

Acts 1992, No. 418, p. 849

Defined a public hospital and provided for a monthly transfer of funds, in lieu of a tax, to be made by all public hospitals to the Alabama Medicaid Agency, in an amount to be determined by the Medicaid Agency, to be credited to the Alabama Mothers and Babies Indigent Care Trust Fund. Effective January 10, 1993 through September 30, 1995.

Acts 1992, No. 440, p. 871

Amended the provider tax on nursing homes to provide that the tax shall be on all such facilities; levied a tax on all nonpublic hospitals; excluded public hospitals, state-owned teaching hospitals, and certain rehabilitation facilities; and provided for the Alabama Medicaid Agency to make an annual determination regarding the methodology of disproportionate share reimbursement to hospitals and guaranteed that such amount would never be less than the 1992 level. Effective January 10, 1993 through September 30, 1995.

Acts 1993, No. 314, p. 471

Repealed the hospital tax and provided for a refund to those nonpublic hospitals which were paying the tax under Act 92-440, for the month of April 1993 and thereafter; repealed the criteria for a disproportionate share hospital (DSH); established that the Medicaid Agency will, at the beginning of each fiscal year, promulgate regulations regarding disproportionate share reimbursements to disproportionate share hospitals (criteria for defining these DSH hospitals will also be developed by the Medicaid Agency, in accordance with federal guidelines); and provided that DSH payments to hospitals would not be less than the DSH cap established by the federal Health Care Financing Administration (\$147 million), which was the 1992 level.

Acts 1997, 1st Ex. Sess., No. 901, p. 277

Levied a supplemental privilege tax of an additional \$200.04 per bed annually, effective until December 31, 1999, on every nursing facility in the state. (Act 99-409 deleted the expiration date). Authorized the Department of Revenue, upon the advice of the Alabama Medicaid Agency, to reduce this supplemental privilege tax if such reduction is required to ensure that the total revenues from the aggregate of this

supplemental privilege tax and the privilege tax during the fiscal year are less than or equal to 6% of the total revenues received by the nursing facilities subject to the tax.

Acts 1999, No. 409, p. 729

Deleted the provision in Act 97-901 which provided that the privilege tax on nursing facilities would expire on December 31, 1999.

Acts 2002, No. 414, p. 1058

Effective July 1, 2002, provided that Alabama citizens would pay a privilege tax of \$.10 on all prescriptions filled in the state. Removed the prescription cost \$3.00 or more.

Acts 2004, No. 532, p. 1120

Increased the supplemental privilege tax for each bed in a nursing home facility from \$200.04 per bed to \$900 per bed making the total annual privilege tax \$1,899.96 per bed in a nursing facility; and increased the nursing facility provider's cap on reportable cost per patient from cost plus 10% to cost plus 11%.

NOTE: Effective October 1, 1995, federal rules limited DSH payments to the cost of uncompensated care, with the exception of "high" DSH hospitals which can be paid a greater amount.

Acts 2009, No. 549, p. 1454

Levied a hospital assessment on privately owned hospitals of 5.38% of net patient revenue for fiscal years 2010 and 2011.

Acts 2010, No. 520, p. 879

A county or municipality may not establish, levy, impose, or collect, as a condition of doing business, any tax, fee, or license, on or with respect to the production, processing or transportation on any oil or gas produced in Alabama and or which severance taxes have been paid to Alabama. 8% of gross value; small well oil, 5% of gross value; escaped oil is an additional 12.5%; gas, \$.355 per mcf, effective July 1, 2012 (rate set annually, based on gas fuels producer price index); sulfur, \$6.88 per long ton effective July 1, 2012 (rate set annually, based on sulfur producer price index).

Counties and incorporated municipalities may levy occupational license taxes for the privilege of engaging in or managing any business, profession, or occupation within their jurisdictions. Annual licenses are issued, and rates vary according to the type of business. Local governments may levy an additional license tax of up to 50% of the appropriate tax already imposed.

Counties may, per Section 40-12-4 of the Code, levy a sales or use tax (referendum is optional) to be used exclusively for public school purposes. A local act may be enacted by the legislature authorizing counties to levy a sales tax for other purposes. A county's sales and use tax rate may vary depending upon whether the sale occurs within or outside of a municipality's corporate limits. All local sales and use taxes are subject to the same exemptions as the state sales and use tax and must generally conform to the corresponding state levies except for the rate of the tax. Municipalities and counties may collect their own sales and use tax. Section 40-23-2.1 provides that only one county and only one municipal tax may be collected on the same sale. A county or municipality may have more than one sales or use tax rate depending on the type of tangible personal property purchased. For example, an automobile rate may differ from the vending machine rate and the general rate.

Provided for a separate (from electricity, water and gas utilities) telephone gross receipts tax at an increased rate and amended Section 40-21-121 to provide that the cellular telephone tax rate is tied to the telephone gross receipts tax rate (if that rate is lower than 4%) rather than to the gross receipts tax rate of other utilities. The effect of this provision was to maintain at 4% the tax rate on the first \$40,000 of monthly charges, increase from 3% to 4% the tax rate on the next \$20,000 of monthly charges, and increase from 2% to 3.7% the tax rate on any additional (over \$60,000) monthly charges.

Acts 1997, 1st Ex. Sess., No. 867, p. 208

Made the sale of prepaid telephone calling cards subject to the sales and use tax and exempted the usage of those cards from the utility gross receipts tax and the cellular telecommunications services tax.

Acts 1998, No. 195, p. 338

Provided for the incorporation of the Alabama Revolving Loan Fund Authority to issue up to \$12 million in bonds for the purpose of making grants to the 12 regional planning commissions. This act pledged for the repayment of the bonds as much as necessary of the cellular radio telecommunication services tax, subject to ratification of the constitutional amendment proposed in Act 97-356. The proposed amendment was ratified and became Amendment No. 616 to the Constitution of Alabama.

Acts 1999, No. 399, p. 663

Provided that broadband personal communications services would be taxed under the cellular telecommunications tax, rather than the utility gross receipts tax, and included commercial mobile radio services in the definition of cellular services to which the cellular telecommunications tax applies; and provided that any cellular telecommunication services provider who accepts in good faith from a purchaser a cellular telecommunication services tax exemption form provided or approved for use by the Department of Revenue would not subsequently be liable to the Department of Revenue or others for the tax on sales to that purchaser.

Acts 2001, 4th Ex. Sess., No. 1090, p. 1120

Brought Alabama's Cellular Telecommunications (Mobile Telecommunications) Tax provisions into alignment with the federal Mobile Telecommunications Sourcing Act. The provisions of the act which relate to alignment with that federal act were effective for customer bills issued on or after August 2, 2002 (pursuant to federal law). Amended the definition of "monthly charges" upon which the tax is based to expand the tax base to include all airtime charges, including toll and roaming charges (formerly local airtime charges only), effective for all customer bills dated on or after February 1, 2002, regardless of when the services being billed were provided. Increased the tax rate from 4% on monthly charges less than \$60,000 and \$4,020 plus 3.7% of excess over \$60,000 on monthly charges over \$60,000 to 6% beginning with bills dated February 1, 2002. Authorized home service providers furnishing mobile telecommunications services to deduct and retain .9% from the tax billed on or after February 1, 2002 and until October 1, 2002, at which time the amount retained and deducted decreased to .25% of the tax billed. Changed the distribution of the remaining tax receipts, after payment of principal and interest on Alabama Revolving Loan Fund Authority bonds, from the State General Fund to current distribution. Levied a tax on mobile radio communication services at the same rate as the Mobile Telecommunications Tax, effective February 1, 2002.

Acts 2007, No. 279, p.378

Increased the aggregate amount of bonds that may be issued by the Alabama Revolving Loan Authority for the purpose of making grants to the 12 regional planning and development commissions from \$12 million to \$24 million.

COMPARISON WITH NEIGHBORING STATES:**Florida**

6.65% special state communications services tax rate is applied to cellular services, cable television services, faxes and commercial landline telecommunications services. There is, in addition, a 2.52% state utility gross receipts tax on the total amount of gross receipts derived from business done within the state, for a total rate of 9.17%. There is also a local surtax for which the rate is revenue dependent, thus it varies. All taxes are paid by the customer. Direct-to-home satellite service is taxed at 13.17%, and no local tax applies.

Georgia

State sales tax rate of 4% plus additional county surtax of up to 4% is applied to cellular telephone (1) monthly access fees and set monthly fees; or (2) vertical services (call-waiting, call-forwarding, etc.) charges. The tax is not applied to separately stated airtime charges or voicemail services.

Mississippi

State sales tax of 7% is applied to telecommunications gross receipts, including mobile and cellular telephone.

Tennessee

State telecommunications sales and use tax is applied to cellular telephone services. Residential interstate and international calls are taxed at the state rate of 7% plus 1.5% local surtax. Business interstate and international calls are taxed at the state rate of 7.5% with no local surtax until July 1, 2013. Intrastate (long distance and local service) calls are taxed for both business and residential at the state rate of 7% plus a local surtax of 2.5%. Ancillary service is taxed at the state rate of 7% plus 2.5% local surtax. Interstate telecommunications sold to qualified call centers are exempt.

TENNESSEE VALLEY AUTHORITY IN-LIEU-OF-TAXES PAYMENTS

STATUTORY AUTHORITY:

16 USC, Section 831 and Sections 40-28-1 through 40-28-5, 41-9-783 and 41-10-570 Code of Alabama 1975, as amended.

TAX BASE:

The Tennessee Valley Authority (TVA) is a federal agency which makes in-lieu-of-taxes payments to the states in which its power properties and operations are located.

TAX RATE:

The TVA pays 5% of its gross revenues from the sale of power in the preceding fiscal year to the states in which TVA carries on power operations and in which TVA has acquired properties previously subject to state and local taxation. Revenue from power sold to federal agencies is excluded from taxation. The formula used to determine each state's share is: One-half of the annual payment is divided proportionately among the states according to the value of the TVA's power property within each state, and the remaining half is divided proportionately on the basis of the TVA's power revenues from each state to the TVA's total power revenues.

COLLECTIONS:

The Department of Revenue annually receives equal monthly installment payments from the TVA and a year-end adjustment payment added to the last installment.

DISTRIBUTION:

The total TVA payment is shared by the State of Alabama and certain counties in the state. The amount of the TVA payment retained by the State of Alabama is credited to the Tennessee Valley Exhibit Commission Trust Fund and/or to the State General Fund and/or to the Incentives Financing Authority Debt Service Fund. (See LEGISLATIVE HISTORY, Acts 1987, No. 586; Acts 1990, No. 531; and Acts 1995, No. 372 and No. 373). Beginning in fiscal year 2010 and in each fiscal year thereafter, the payment is distributed as follows: to the counties served by TVA, 78%, plus the amount by which TVA payments to dry counties and municipalities not

served by TVA are reduced and replaced with liquor tax revenues pursuant to Act 2010-135; to the dry counties and municipalities not served by TVA, 5%, but this amount is reduced by an amount equal to the funds allocated to such counties and municipalities from liquor tax revenues pursuant to Act 2010-135 until the aggregate amount of revenue received by those counties and municipalities is equal to the amount of TVA payments distributed to the counties and municipalities in fiscal year 2009; to the Incentives Financing Authority the amount necessary to pay the debt service on its bonds; and the remainder to the State General Fund (see LEGISLATIVE HISTORY, Acts 2010, No. 135). LEGISLATIVE HISTORY:

Public Law 48, Statute 68, Section 13

Initial federal legislation which established the Tennessee Valley Authority in 1933, and authorized payments to the states served by TVA.

Acts 1978, 2nd Ex. Sess., No. 92, p. 1786

Provided for the sharing of the TVA payments between the State of Alabama and certain counties, including dry non-TVA counties; and amended Section 28-3-74 Code of Alabama 1975, to eliminate the distribution of alcoholic beverage revenues to dry counties. (See DISTRIBUTION).

Acts 1979, No. 306, p. 458

Amended Acts 1978, 2nd Ex. Sess., No. 92, to tie distribution of 5% of total state TVA money going to each dry non-TVA county and to municipalities within those counties to their respective shares of total ABC distribution to dry non-TVA counties and municipalities within those counties in FY 1979, rather than to a proportionate share of ABC total distribution to all dry counties that same fiscal year; also provided that dry counties would not receive less revenue from TVA receipts than they would have received from ABC distributions in the previous fiscal year.

Acts 1979, No. 786, p. 1425

Added definitions of terms and clarified the manner and procedures for distributing portions of the TVA payments and the procedures by which portions of the payments received by dry counties not served by the TVA would be shared with the cities within such counties.

Acts 1987, No. 586, p. 957

Provided that all of the TVA in-lieu-of-taxes revenue retained by the State of Alabama (following the distribution of the counties' portion of TVA payments) be deposited to the credit of the Tennessee Valley Exhibit Commission Trust Fund, until the balance in the Fund equals the amount of debt service on any bonds issued by the Tennessee Valley Exhibit Commission for the next succeeding fiscal year. All other TVA in-lieu-of-taxes revenue retained by the state would be credited to the State General Fund.

Acts 1990, No. 531, p. 823

Amended Sections 41-9-782 and 41-9-783 of the Code relating to the Tennessee Valley Exhibit Commission to authorize the Commission to issue and sell revenue bonds in a principal amount not to exceed \$1.5 million in order to pay certain costs of completing an information and exhibit center; and appropriated and pledged such amounts as may be necessary to pay principal and interest on the bond issue from monies retained by the state from in-lieu-of-tax payments made by the Tennessee Valley Authority. Required the Commission to, at the end of each fiscal year, transfer any surplus funds in its account to the Tennessee Valley Exhibit Commission Trust Fund for reimbursement of monies previously withdrawn (with interest). After repayment to the trust fund, any surplus monies remaining are to be transferred to the State General Fund.

Acts 1995, No. 372, p. 746 and No. 373, p. 747

Pledged and appropriated the portion of the TVA payments remaining after distribution of the county shares and the payment of the debt service on bonds issued by the Tennessee Valley Exhibit Commission to pay the debt service on bonds issued by the Incentives Financing Authority. Act 95-373 created the Alabama Incentives Financing Authority and authorized it to issue bonds to finance industrial projects in the state.

Acts 2006, No. 655, p. 1792

Increased the annual amount of TVA payments distributed to served counties from 75% to 78% beginning in FY 2006. Required additional amounts received by the counties from the 3% to be allocated by local legislation. The additional 3% comes from amounts previously retained by the state.

Acts 2007, No. 417, p. 869

Provided that any county in which a community development district is located would participate in the distribution of the state beer tax. A dry county that receives alcoholic beverage taxes or fees because of this act would have its share of TVA payments reduced by the amount equal to the alcoholic beverage taxes or fees received by such county.

Acts 2010, No. 135, p. 190

Limited the amount of revenue distributed from the state liquor taxes to the State General Fund, the Public Welfare Trust Fund, and the Special Mental Health Fund at the amount received for fiscal year 2009 until the annual growth in liquor tax receipts above the fiscal year 2009 amount equals the amount of Tennessee Valley Authority (TVA) in-lieu-of-taxes payments distributed in FY 2009 to the dry counties not served by the TVA. Beginning with the fiscal year ending September 30, 2010, distributed to the dry counties not served by the TVA from the growth in state liquor taxes up to the amount of TVA payments distributed to dry counties for fiscal year 2009 plus an amount equal to the percentage growth in TVA payments received by the state. In addition, beginning in the fiscal year ending September 30, 2010, reduced the amount of TVA payments

distributed to the dry counties not served by TVA by an amount equal to the amounts allocated to those counties from the state liquor taxes. The amount by which the TVA payments are reduced will be distributed to the counties served by the TVA.

COMPARISON WITH NEIGHBORING STATES:

Florida

No payment is received from TVA.

Georgia

The total payment received from TVA is redistributed to counties, county school districts and municipalities according to the relative book value of TVA property therein. The TVA payment distributed to Georgia in fiscal year 2010 was \$8.8 million.

Mississippi

The first 12.5% is retained by Tishomingo County, the next 10% is retained by the state, and the remainder is distributed to the TVA served counties and municipalities, based on a ratio of power sales (of this amount, 25% is distributed to school districts within TVA served counties, based on a teacher to pupil ratio). The TVA payment distributed to Mississippi in fiscal year 2010 was \$34.6 million.

Tennessee

The state retains \$55.2 million; \$4.1 million is distributed to the counties and municipalities; and any payments received in excess of this amount are split 48.5% to the state and 51.5% to the counties and cities. The TVA payment distributed to Tennessee in fiscal year 2010 was \$327.3 million.

Acts 1997, No. 867, p. 208

Excluded prepaid telephone calling cards from the Utility Gross Receipts Tax, the Utility Service Use Tax and the Cellular Radio Telecommunication Services Tax (and included them in the Sales and Use Taxes).

Acts 1998, No. 654, p. 1431

Exempted from the definition of "Telephone Services," for purposes of the Utility Gross Receipts Tax, access to the Internet; and exempted from the definition of "Telephone Services" for purposes of the Utility Service Use Tax, the Internet and access thereto.

Acts 2001, 4th Ex. Sess., No. 1090, p. 1120

Amended the Utility Gross Receipts Tax and the Utility Service Use Tax, as applied to telephone services, to include interstate telephone service, beginning with bills dated on or after February 1, 2002, regardless of when the services being billed were provided; changed the tax rate, beginning April 1, 2002, (1) from 6.7% to 6% if gross sales or receipts (privilege tax) or sales price (use tax) respecting a person are not over \$60,000; and (2) from \$4,020 plus 3.7% of excess over \$60,000 to 6% if the gross sales or receipts or sales price is over \$60,000; and provided that utilities furnishing telegraph or telephone services may deduct and retain from the gross amount of tax billed by the utility .9% of the tax billed on or after February 1, 2002 and .25% beginning October 1, 2002.

Acts 2004, No.397, p. 668

Amended the Utility Gross Receipts Tax and the Utility Service Use Tax to provide that if charges for nontaxable services are "bundled" with charges for taxable items, then the nontaxable charges are subject to the tax. If the utility can reasonably identify nontaxable charges from records kept in the normal course of business then the charge is not subject to taxation. Stated that a customer does not have a right to require the utility or the Department of Revenue to separate bundled charges in order to minimize the amount of tax charged to the customer.

Acts 2006, No. 292, p. 584

Amended the Utility Gross Receipts Tax and the Utility Service Use Tax to provide definitions and rules for the sourcing of telecommunication services for taxation purposes found in the Streamlined Sales and Use Tax Agreement.

Alabama Economic Incentive Enhancement Act of 2007. Granted certain tax exemptions to qualifying entities (defined in the act so as to target ThyssenKrupp), including a Utility Gross Receipts Tax exemption for up to 10 years.

COMPARISON WITH NEIGHBORING STATES:**Florida**

Annual gross receipts tax of 2.5% for any utility service providing electricity or gas used for light, heat or power, and 2.37% on residential and commercial landline and on mobile telecommunications services. Interstate and international telecommunications services are subject to the gross receipts tax if the charge therefor is billed to a Florida customer, number or telecommunications device. In addition, each telecommunications company licensed or operating in Florida must pay to the Public Service Commission a Telecommunications Company Regulatory Assessment fee. All natural gas transmission companies must pay an assessment fee to the Commission and all utilities regulated by the Commission must pay a Regulatory Assessment fee. All fees are based on gross operating revenues. A state sales tax of 7% is applied to customers' charges for electric power or energy (governmental entities are exempt). A state communications services tax of 6.8% is also applied to customers' charges for mobile telecommunications services, cable, faxes and commercial landline telecommunications services. When combined with the 2.37% services tax, the total tax is 9.17%. The total tax on satellite services when combined with the 2.37% services tax is 13.17%. Local jurisdictions impose their taxes at various rates. When bundled services include both taxable and nontaxable services, the entire package is taxable unless the company can identify the exempt services.

Georgia

No utilities tax based on gross receipts. Public Service Corporations and utilities subject to Public Service Commission pay an annual administrative expense assessment fee based on gross revenues so as to produce revenue of \$1.05 million per year. A state sales tax of 4% is applied to customers' charges for natural or artificial gas, electricity, oil and local telephone service.

Mississippi

No gross receipts tax is levied. A privilege tax is levied instead as follows: Electric light and power companies pay \$22.50 per mile of pole line; pipe line companies, \$15 to \$125 per pipe line mile, according

to the diameter of the pipe; telephone companies, \$.04 per telephone in service or \$25, whichever is greater; and railroad companies, \$5 to \$90 per mile of railroad based on average earnings. A regulatory tax to pay for the expenses of the Public Utilities Commission is imposed on all utilities whose rates are subject to regulation and on all utilities not subject to such rate regulation that furnish electricity to the ultimate consumer. A state sales tax of 7% is applied to customers' charges for interstate and intrastate telephone services and residential noncommercial charges for electricity, water, and natural gas (governmental entities are exempt).

Tennessee

A gross receipts tax on gas, water, electric power and light companies and other public utilities at a rate generally of 3% of intrastate gross receipts (except gas companies that manufacture or distribute manufactured gas pay 1.5%). All governmental agencies and gas, water and power plants owned or operated by cities are also exempt.

DISTRIBUTION:

After deducting the cost of collection: 15% is deposited to the State General Fund and 85% is deposited to the Special Mental Health Fund.

NOTE:

This tax is paid by utility companies in four equal increments. The companies, in turn, add 2.2% to their customers' bills for as long during the year as necessary to collect from their customers the amount paid by the utility companies. The tax is paid on total gross receipts, including the minimum monthly (base) charge. The overall base of this tax is larger than that of the 4% Utility Gross Receipts tax for utilities subject to both taxes because the base of this tax includes receipts to utility companies from federal entities. Utility companies vary as to how (and whether) they show this tax on customers' bills-it may be identified separately and totally (a separate 2.2% charge), it may be partially separately identified (typically when this is the case the 1.8% will be separately identified and the .4% will not, although the full 2.2% is charged), it may be separately identified in two parts (1.8% and .4%) or it may be combined with the 4% Utility Gross Receipts Tax (appearing as a 6.2% total charge). Although this is a tax on the utility company, the company treats it as a cost of doing business which it passes directly on to the customer. The October 1 payment is the first payment of each year, based on the twelve months preceding the closing of the company's books, which is usually in September for most utility companies.
